VOL. 42.

VICTORIA, B. C., MONDAY, MARCH 31, 1913

NO. 75

DEMONSTRATION BY POWERS IN ALBANIA

Montenegro Stubborn, Serbia
Slow in Removing Troops,
Powers May Intervene

AUSTRIA HUNGARY LOSING PATIENCE

Artillery Activity by Montene-
grins on Main Front
Before Scutari

NEGATIVE REPLY TO BE GIVEN TO POWERS

London, March 31.—The stubborn-
ness of Montenegro in continuing the
bombardment of Scutari, contrary to
the wishes of the powers, and the dilato-
riness of Serbia in withdrawing her
troops beyond the line decided upon as
the frontier of the future Albania, will,
if not overcome by more peaceful
measures, lead to a demonstration and
blockade of the Montenegrin coast
and the ports of Albania occupied by
Serbia.

Austria-Hungary is losing patience
with her little neighbors and is urging
the powers to take action to enforce
the demands contained in their notes
to Serbia and Montenegro. When the
naval measures are taken, it is expected
that this duty will be allotted to
Great Britain, Italy and Russia, al-
though the joint action in the collec-
tive diplomatic action, will not partici-
pate in the coercive step.

Serbia has expressed her intention of
complying with the powers' demand to
evacuate Albania, but has made no
movement in that direction, and the
Austrian government complains that
instead of doing so she is sending more
war material to that territory, proba-
bly under the idea that she will not
be forced to leave until peace has been
concluded.

Austria, however, insists upon the
immediate removal of the Serbians
from the country which under the
powers' decision cannot be Serbia's, no
matter what the result of the fighting
is.

A Vienna dispatch to the Daily Mail
says: "Austria has three army corps
on the Herzegovinian frontier ready to
enter Montenegro should the pressure
from the powers, which it is intended
to repeat and intensify, be ineffectual."

Cettinje, March 31.—Since yesterday
the Montenegrin artillery on the main
front before Scutari has been develop-
ing great activity. The Turkish pos-
itions in the plain before the town have
been bombarded heavily and the Turks
have been driven from their entrench-
ments near the River Kib by the per-
sistent artillery fire.

Montenegro will reply in the nega-
tive to the representations of the
powers made early to-day that an
envoy of the powers would convey a
cipher message to Essad Pasha, the
Turkish commander in Scutari, con-
taining the Porte's orders to permit
the civilian population to depart.

This information, which comes from
an authoritative source, gives as a
reason for this decision that King
Nicholas on three different occasions
has offered to allow the consuls and
all the foreigners to leave the city, but
each time the commander of the town
has rejected these suggestions.

SONORA REBELS ARE NOW FOR ANNEXATION

Ignacio Bonillas on Way to
Washington to Confer
With Officials

El Paso, Tex., March 31.—Annexa-
tion to the United States is being
sought by certain factions of revolu-
tionary leaders in Sonora, the north-
western Mexican border state practi-
cally in control of insurgent state
troops. Ignacio Bonillas, a Sonora
state congressman, said to be the
leader of the movement, is now on his
way to Washington to confer with of-
ficials of the departments of state and
interior regarding the plan. Accord-
ing to leaders here Bonillas will pro-
pose that if the Washington govern-
ment recognizes the belligerency of the
Sonora state troops, annexation to the
United States will be advocated.

PEACE EMBASSY KILLED.

El Paso, Tex., March 31.—Col. Pas-
qual Orozco, sr., father of the northern
revolutionist leader, has been executed
by order of Emiliano Zapata, rebel
leader of Southern Mexico, according
to advices received here to-day. Col.
Orozco some days ago visited Zapata's
stronghold at peace embassy for the
Huasteca government.

DEATH OF J. PIERPONT MORGAN TOOK PLACE TO-DAY AT ROME

American Financier Succumbs to Extended Illness at the Age
of Seventy-Six While on Vacation Trip; Stock Mar-
kets of the World Show No Particular Change
When News is Announced

HAD REMARKABLE FINANCIAL CAREER THAT COMMENCED ON INSURANCE DIRECTORATE

New York, March 31.—J. P. Morgan is dead. He died at 12.05 p. m. Rome
time (6.05 a. m. New York time). This announcement was made by the officers
of J. P. Morgan & Company to-day. The Morgan offices, at the corner of
Broad and Wall streets, were closed this morning. On the front door the fol-
lowing notice was posted: "J. P. Morgan died at Rome, Italy, at 12.05."

Henry P. Davison, a member of the house of Morgan, made the announce-
ment. He said merely that he had received a cable that the financier had
passed away shortly after noon.

Rome, March 31.—When the death of Mr. Morgan was seen to be ap-
proaching rapidly, Professor Bastianelli and Dr. Dixon forced Mr. and Mrs.
Herbert L. Satterlee, his son-in-law and daughter, and Miss Helen Hamilton,
who had been in constant attendance, to leave the room.

Mr. Morgan, before the end showed he was suffering internally only by a
movement of his right hand. Otherwise he displayed no sign of vitality ex-
cept by continued heavy breathing.

Frequent bulletins were issued during the morning, showing that his con-
dition was gradually becoming worse, and by 11 o'clock the physicians had
given up all hope.

Mr. Morgan was unable to assimilate the artificial nourishment admin-
istered during the morning and his physical weakness was extreme. Heart
tonics were injected but these had no effect, and for several hours before his
death he was in a state of coma, unable to respond to any questions or to
recognize any of those at his bedside.

Dr. M. Allen Starr, of New York, called into consultation over J. Pier-
pont Morgan's illness, attributed the
financier's breakdown to emotion
caused by the investigation carried out
by the Pujo committee at Washington
into the operations of the money trust.

One of his relatives, Mrs. Fitzsim-
mon, wife of the Rev. William Fitz-
simmon, arrived from Canada, where he
was shown into the death chamber, but
her presence remained unknown to the
dying man.

Beside the four trained nurses in at-
tendance Miss Helen Hamilton was of
great assistance to the three physi-
cians, Prof. Giuseppe Bastianelli, Dr.
Allen Starr and Dr. George A. Dixon.
During the morning, George Wheeler
Post, secretary of the American em-
bassy, called to make inquiries on be-
half of the American ambassador,
Thomas J. O'Brien, and was told that
Mr. Morgan had collapsed, and that
his condition had been rendered worse
by increasing deafness.

From the time of his arrival in Rome,
Mr. and Mrs. Herbert L. Satterlee had
feared a mistake had been made in
bringing Mr. Morgan here instead of
taking him direct to London, where he
would have been in his own house in-
stead of a noisy hotel, and they thought,
too, that the climate of Rome was
too mild and enervating for a man
in his condition of ill-health.

Cable dispatches from America,
Great Britain and other parts of the
world poured in all day, making anx-
ious inquiries, and expressing the affec-
tion in which Mr. Morgan was held
everywhere.

The financier's secretary found it im-
possible to reply to all the inquiries,
and Mr. and Mrs. Satterlee expressed
the desire to inform the inquirers how
touched they were at the manifesta-
tions of sympathy they had received.

The body of the late J. P. Morgan is
to be embalmed and sent to the United
States on board a ship from Naples. A
funeral service will be held before his
departure.

SUFFERED AN ATTACK WHILE IN NEW YORK

New York, March 31.—Coincident
with Mr. Morgan's death it became
known that he had suffered a serious
attack before his departure for Europe,
but rallied so rapidly that it was not
considered a forerunner to fatal ill-
ness and was known only to his most
intimate friends.

For many years Mr. Morgan spent a
considerable portion of his time
abroad but on this trip, for the first
time, he severed all connection with
business affairs and permitted his
partners to shoulder all responsibility
for their conduct. It was the first in-
stance of his taking such a complete
rest since he entered the banking busi-
ness in this city before the Civil war.

Prominent bankers in this city said
this morning that they did not predict
any decided unfavorable effect on the
stock market by reason of Mr. Morgan's
death. The reason of this, they ex-
plained, was that the recurrent rum-
ors of his serious illness had pre-
pared the market for any possibility
and enabled those engaged in market
operations to prepare for just such a
situation.

J. Pierpont Morgan was born April
17, 1837, in a brick cottage in Hart-
ford, Conn. As a youngster his ten-
dency to write poetry gave him the
name of "Pip." When he was four-
teen, Morgan was sent to Boston to the
English High school. He showed a
particular bent for mathematics, but
had no gifts indicative of "unusual
mental power." Probably his first at-
tempt at finance took place in Boston.
The school teacher gave him money
with which to buy books. Young
Morgan was gone for a long time.
When he returned he handed the

J. PIERPONT MORGAN.

teacher the erasers and also some
change.

"What's this for?" asked the teacher.
"I gave you just enough to buy the
erasers. I always paid that for them."
"Oh," replied young Morgan, "I went
around until I could find a place to buy
at wholesale."

EXCHANGES ARE NOT AFFECTED BY DEATH

New York, March 31.—There was no
excitement or marked change in prices
during the opening session of the Con-
solidated Exchange, which opens half
an hour in advance of the stock ex-
change. The stock market bore up
well under the news of Mr. Morgan's
death. Opening prices showed de-
clines in almost no case exceeding a
point. Supporting orders rallied the
market quickly. Trading showed no
evidences of nervousness.

London, March 31.—The death of J.
Pierpont Morgan had little or no ef-
fect on prices on the London stock ex-
change. The list had weakened some-
what on earlier telegrams forecasting
the speedy end of the great financier,
but any disposition to start a "bear"
movement was quickly checked and
the actual announcement of his pass-
ing away scarcely caused any further
movement.

Paris, March 31.—Prices showed ir-
regular changes on the Bourse to-day.

Berlin, March 31.—Trading was
quiet on the Bourse to-day and price
changes were limited to small frac-
tions.

Paris, March 31.—The death of J.
Pierpont Morgan became known on the
Paris Bourse shortly before closing
time. It had no visible effect on the
market, but was the subject of consid-
erable comment and questioning as to
its probable consequences in America.

The prevailing view seemed to be
that Mr. Morgan's leadership would be
missed more months hence rather than
immediately. Mr. Morgan occupied an
immense place in French confidence.
He had done more than anyone else
during the last ten years in establish-
ing the faith of French investors in
American securities.

Of J. P. Morgan, financier, and of his
achievements all the world knows. Few
men have been more widely feared, yet
more generally trusted. Those who
met him only in a business way saw
him only as a business man.

(Concluded on page 11.)

GERMANY PLANNING LARGE AERIAL NAVY

Fleet of Airships and Aero-
planes to Cost \$12,500,000
Over Next Five Years

ENTIRELY SEPARATE FROM ARMY FUND

Ten Naval Dirigible Balloons of
Largest Size; First Appro-
priation is \$750,000

PLANS ALSO FIFTY- FOUR BALLOON HALLS

Berlin, March 31.—The German Ad-
miralty's plans for the establishment
of a big aerial navy were published
officially Saturday afternoon. The fleet
of airships and aeroplanes is to cost
\$12,500,000, which is to be spread over
the next five years. The fleet is to be
entirely apart from that connected with
the army, on which nearly \$25,000,000 is
to be spent.

A bill providing for the appropriation
of \$750,000 as the first outlay on the
Admiralty's aerial fleet was intro-
duced into the Imperial parliament. It
calls for ten naval dirigible balloons of
the largest size, of which eight are to
be held in reserve. Fifty-four double-
revolving balloon halls, into which the
dirigibles will be able to enter regard-
less of weather, are to be erected, and
another two to be kept as a reserve.

A total of fifty aeroplanes, of which
thirty-six are to form the active fleet
and fourteen the reserve, are also to be
built, and these are to be manned by a
special corps of 1,452 officers and men.

The appropriations for this fleet, to
be spread over the years 1914 to 1918,
comprise \$8,750,000 for dirigibles and
\$2,250,000 for aeroplanes and \$1,500,000
for maintenance of the crews.

The life of the new airships is es-
timated at only four years each.

EARTH QUAKED FOR HOUR AND A HALF

Recorded at Three American
Cities and Believed to Be
in Behring Sea

Seattle, March 31.—A violent earth-
quake was recorded on the seismo-
graph of the University of Washing-
ton, beginning at 7.48 o'clock last
night and continuing an hour and a
half. There was a continuous shock
for forty-five minutes. Apparently the
disturbance was in Behring Sea, and
the record points to a volcanic out-
break probably having taken place.

St. Louis, Mo., March 31.—The seis-
mograph at St. Louis recorded an
earthquake of unusual violence last
night at a point estimated to be 4,300
miles away. The shock, it is thought,
was most seriously felt in Behring
Strait.

Washington, D. C., March 31.—An
earthquake of unusual intensity was
registered last night on the seis-
mograph at Georgetown University. The
principal tremor occurred at 11.25, al-
though the quakes lasted from 11.01 to
12.30 this morning.

The disturbance apparently was be-
tween 6,000 and 7,000 miles removed
from Washington.

REBUILDING BONDS PLANNED FOR OMAHA

Lincoln, Neb., March 31.—A delega-
tion of Omaha men asked the legisla-
ture to-day to pass a bill authorizing
Douglas county to issue bonds in the
sum of \$1,000,000 for the purpose of
rebuilding the houses in the tornado
district of Omaha.

The delegation appealed to Governor
Moorehead to use his power of intro-
ducing emergency measures in getting
the matter before the legislature.

MRS. A. A. GREENWOOD DIES AT TORONTO

Toronto, March 31.—Mrs. A. A.
Greenwood, an old and active mem-
ber of the Broadway Methodist Taber-
nacle, passed peacefully away yester-
day in her seventy-sixth year, at the
residence of her son-in-law, J. O. Mar-
shall, 77 Delaware avenue. Three
children survive her, two sons, Bert,
formerly with the Evening Telegram
here and now assistant editor of the
Vancouver Daily Province, Vancouver,
B. C.; Henry, of this city; and Mrs. J.
G. Marshall, also of Toronto.

HON. W. S. FIELDING

HON. W. S. FIELDING SAILS FOR HOME

INTERVIEWED ON THE NAVY QUESTION

Says Difficulty in Establishing Ship Yards in Canada Has Been
Magnified and That Fresh Struggle Will Occur
If Closure is Adopted

London, March 31.—Hon. W. S. Field-
ing sailed for home on the Allan liner
Victorian Saturday. In an interview
which he gave before sailing he said
the view that Canada cannot supply
ships as well as men will have diffi-
culty in convincing Canadians that they
are right. On our Atlantic coast
there is as fine a class of men for naval
service as is to be found anywhere in
the world. Hundreds of young men of
the maritime provinces are manning
the Canadian fishing fleet, and many
of them, I believe, pass from the fish-
ing fleet into the American navy.

"The difficulty in establishing ship-
yards has been much magnified. One
of the great English shipbuilding firms
has just established itself at Montreal,
and one of its principals even thought
that Dreadnoughts could be constructed
there. We are not expecting to
burn Dreadnoughts in a day, but that
Canadian naval vessels of a substan-
tial type can be built in Canada at a
moderate advance over British prices

was proven by the tenders two years
ago from the shipbuilders of this coun-
try, the very men who to-day are build-
ing for the admiralty."

Mr. Fielding, discussing the present
situation at Ottawa, said:
"If Premier Borden carries out his
threat of introducing the closure in-
stead of appealing to the country, as
Sir Wilfrid Laurier did on another oc-
casion, there will no doubt be a fresh
struggle. Until the closure is adopted
all the forces of the opposition will be
employed against it, as well as against
the navy bill."

"If the closure is adopted and the
navy bill passes, what becomes of it
in the senate? The Liberals are not
inclined to look with favor upon rejec-
tion by the senate of the House of
Commons bills unless there be very
strong reasons, and there will be many
who will contend that such strong
reasons do exist in this case, if this
measure, so exceptional in character,
is passed through the Commons by
such extraordinary and unprecedented
procedure."

SUFFRAGETTES LOST BY MILITANT ACTS

Houses They Attacked Be-
longed to Supporters of
Votes for Women

London, March 31.—The suffragettes,
in attempting to forward their cause
by setting fire to new and unoccupied
houses, have again struck at friends
instead of foes. The houses at Walton,
which they damaged with bombs while
it was being built for the occupancy
of the chancellor of the exchequer, is
really owned by Sir George Russell,
proprietor of one of the two papers
which supports votes for women.

It is now learned that a house at
Hampstead, which they attempted to
burn last Monday, is owned by the
daughter of H. W. Nevins, an ardent
worker for woman suffrage. Miss
Nevins and her mother also are
among the most active supporters of
the cause, and give much of their time
to it.

A watchman heard the explosion, and
saw the flames, and on investigation
found some cans of oil under a pile of
papers, which he extinguished before
much damage was done. Two women
were seen running away.

The congress of the National Union
of Teachers of the United Kingdom
held at Weston-Super-Mare, rejected by
a majority of more than two to one
a resolution of sympathy with the
militant suffragettes. There was a hard
debate. The teachers last year negat-
ived a similar proposal by a smaller
majority.

A body of one hundred and twenty-
five suffragettes have petitioned the
home secretary to order an investiga-
tion into the methods of the police.
They charge that the police have treat-
ed their prisoners indecently in many
of the recent arrests, and they cite sev-
eral alleged cases.

BULGARIANS ADVANCE ARE THEN REPULSED

Hurled Twenty Thousand Men
Against Advance Position
and Carried It

FORCED TO RETREAT AT BAYONET POINT

One Thousand Dead Left by
Attackers at Biyuk
Chekmedui

CIVILIANS MAY NOW LEAVE SCUTARI FORT

London, March 31.—Fighting occur-
red at Biyuk Chekmedye on Saturday
between forces of the Turkish and Bul-
garian armies, in which the Bulgari-
ans hurled 20,000 men against the
Turkish advance position, and carried
it with the bayonet, the Turks retir-
ing on their main position.

At daylight the Turks bombarded
the captured position and prevented the
Bulgarians from entrenching. Sub-
sequently the Turks delivered a
counter attack, 6,000 infantry storm-
ing the position with the bayonet.

The Turks flung themselves on the
Bulgarians and a desperate bayonet
fight ensued. The Bulgarians were
driven down the slope on the opposite
side.

The Bulgarian attack on the west
wing near Tchatalja also was repulsed.

Constantinople, March 31.—The Bul-
garians left 1,000 dead on the field
after the engagement on Saturday
west of Biyuk Chekmedye. The Turks
also found 400 rifles and large quanti-
ties of entrenching tools. Since this
engagement all has been quiet along
the Tchatalja lines, as well as at
Bular.

The Turks believe the Bulgarian of-
fensive action at Tchatalja was in-
tended to prevent any Turkish demon-
stration during the attack on Adrian-
ople, and that the Bulgars will not at-
tempt to pierce the lines, which recent-
ly have been strengthened by the addi-
tion of heavy siege guns.

The fall of Adrianople has caused a
feeling of the deepest dejection in all
sections, which has tended to increase
the unpopularity of the government. A
message from the British vice-consul
at Adrianople states that all the con-
suls and foreign communities are safe
and well. His report says that the
Bulgarians took only 15,000 prisoners,
the rest of the garrison being in hiding.

The Porte has instructed the com-
mander at Scutari to permit the de-
parture of the civilian population. It
is expected that the note of the powers
on the subject of mediation will be
presented to the Porte to-morrow.

WINNIPEG THEATRES ADD TO FLOOD FUND

Police Take Names of Those
Employed Sunday at Bene-
fit Performances

Winnipeg, Man., March 31.—The local
fund for the relief of Ohio flood suf-
ferers has grown to \$1,775.25 and is still
increasing. To this will be added \$2,500
collected by the proprietors of the prin-
cipal moving picture theatres, who
gave benefit performances yesterday
afternoon and evening. Fifteen the-
atres contributed.

When in the early hours this morning
the final count of the bank tellers who
had volunteered their services for the
arduous task of counting the receipts
announced a total of \$2,447.90 without
a moment's hesitation, the theatre
managers and others present
made the total up to \$2,500. During the
course of the day the different theatres
kept open were visited by members of
the city police department, who took
names and addresses of all the em-
ployees found on the premises. Special
collections were taken at several
churches yesterday, although the pas-
tors of most of the churches have de-
cided to await fuller particulars as to
the need of contributions, and for that
reason decided not to ask for special
offerings yesterday.

ONE DAY EXCAVATION 10,184 CUBIC YARDS

Panama, March 31.—The largest ex-
cavation for a single slide in one
day since the commencement of the
canal operations was made Friday,
when 10,184 cubic yards were removed
from the Cucaracha slide by five
steam shovels.

The movements of the slide con-
tinue, but the removal of the dirt is
progressing favorably.

FOUR LOGGERS DROWNED.

Eugene, Ore., March 31.—While at-
tempting to save a drive of logs from
being swept down stream by high
water caused by continued heavy rains,
James Myers, George Myers, Ralph
Allen and Cleo Doyle, loggers, lost their
lives by drowning in the Sluslaw river,
near Mount, 40 miles west of Eugene,
yesterday afternoon. The bodies have
not been recovered.

ATTEMPT TO ESCAPE FROM PENITENTIARY

Austrian Receives Term of One Month and Loses Good Conduct Gains

New Westminster, B. C., March 31.—That his little brothers and sisters in Austria were starving and that his father and mother had been turned out of their home and had no food and no work, was the reason Oesie Dazio, a young Austrian, gave to the court on Saturday for his attempt to escape from the penitentiary on March 6. In view of the fact that he did not resort to violence in his attempt, Police Magistrate Edmonds sentenced him to but one additional month in the penitentiary. In addition to this, the prisoner loses 154 days, which he had gained as a remission of his sentence for good conduct.

According to the story told by Deputy Warden Carroll in court this morning, four prisoners had been taken from the penitentiary in charge of Guard Dynes on the morning of March 6 to dig a grave for a convict who had died in the night. They were outside the penitentiary walls. Dazio was about 30 feet from the guards when he turned and ran for the bushes. Dynes ran after him, shooting with his revolver as he ran, but the Austrian reached the bushes unharmed and was hidden from view. Dynes then returned to the other three convicts, who had remained where they were, although they had plenty of opportunity to escape. He took them back to the penitentiary and gave the alarm.

The convict was finally found hiding in a hollow stump, one foot sticking out betraying him to a passing guard.

MRS. HARRIMAN TO PUBLISH REQUESTS

Letters Asking for Financial Assistance to Be Given in Book Form

New York, March 31.—Mrs. E. H. Harriman has turned over to the bureau of municipal research upward of six thousand letters that she has received, embodying applications for sums of varying amounts, the whole aggregating the hefty figure of \$267,000,000. Mrs. Harriman has replied to all the communications and preserved them. The municipal research bureau is to make a classification of them and publish them in book form, "drawing general deductions from them which may throw light on many problems connected with public and social needs."

The publication will be interesting and unique. Probably some of the writers of letters would prefer that their epistolary efforts were left out of the collection, but the idea seems to be to use them all. Most of the applications were for aid for institutions of an educational or charitable character. Six hundred persons wanted to negotiate personal loans and the amount of these in the aggregate was more than \$5,000,000. Three thousand letters contained personal appeals for financial assistance.

Some of the writers wanted comparatively insignificant sums, but one western woman coolly asked for a million dollars as a personal gift, and assured Mrs. Harriman that the money never would be missed. The institutional requests totalled \$213,000,000. Most of the purely personal appeals were from women, and it is stated that in general the letters were written by persons of culture and education, the number sent by cranks, ignorant persons and children being comparatively small.

The letters were received from all parts of the world, the great majority, of course, coming from this country. Wealthy persons, as a rule, pay no attention to correspondence of this kind. Mrs. Harriman has set a good example in turning over the letters she has received to an organization which purports to publish them and let the whole country judge of their merit.

THEODORE ROOSEVELT ON WOMAN SUFFRAGE

No Difference Between Work of Best Women and Best Men, He Says

Madison, Wis., March 31.—In response to a telegram sent by Richard Lloyd Jones asking that he wire Governor McGovern his position on woman suffrage, Theodore Roosevelt telegraphed the governor to-day as follows: "I earnestly hope that all Progressives in the Wisconsin legislature will support the suffrage amendment. We, in America, should lead the way in this movement. We don't have to point to what has been done abroad. The Pacific coast and Rocky Mountain states have tried the experiment, and it has worked admirably.

"There is no difference between the work of the best women and the best men, and it seems to me sheer nonsense, when both are doing the highest kind of work for good citizenship, that the artificial line of sex should be drawn as regards one form, and only one form, that work, the exercise of the right of suffrage."

GRADING ON ISLAND LINE WELL COVERED

Location Party Examining Alternative Line From Courtenay to Quinsam River

Vancouver, March 31.—Grading on the Vancouver Island line of the C. N. R. is now in progress all the way from a point thirty-six miles north of Victoria to within four miles of Port Alberni. Fourteen hundred men are employed in the seventeen camps established along the route.

D. O. Lewis, engineer in charge of the work, is in Vancouver to confer with T. G. Holt, chief executive agent, and T. H. White, chief engineer, respecting the line between Port Alberni and the east coast, and in regard to other matters. Two location parties have been in the field all winter. One of them is now examining an alternative line between Courtenay, north of Comox, to the Quinsam River.

FOUND FRIEND'S BODY LYING AT HIS DOOR

Vancouver, March 31.—F. A. Taylor, rooming at 844 Powell street, was awakened by the alarm clock at six o'clock on Saturday morning to find that his room-mate, Harvey J. Miller, had not returned the night before. A few minutes later he found Miller's dead body on the doorstep. A policeman found that Miller's left ear was swollen, and that blood was coming from the ear, but it is thought that this injury was the result of falling down on the steps. The cause of death has not been ascertained. An inquest will be held.

DUMB FOR FIFTEEN YEARS; NOW TALKS

An Operation Performed on New York Farmer Gets Results

New York, March 31.—Left dumb and with his jaws locked as the result of an attack of typhoid nearly fifteen years ago, Leroy Siegfried, son of a farmer of Waterloo, N. Y., soon will be able to talk and eat normally, following an operation performed on his jaws by Dr. Henry M. Kalvin, of No. 5,104 Fourteenth avenue, Borough Park. The operation took place at the Coney Island hospital. The patient is now able to articulate slightly and to open his jaws three-quarters of an inch.

After the attack of typhoid it was necessary to break away two of the young man's front teeth and insert a glass tube to feed him. Three weeks ago Dr. Kalvin, who is a chicken fancier, went to Mr. Siegfried's farm and heard of the son's plight. The surgeon induced him to go to the Coney Island hospital and treatment was begun immediately.

The young man's lower jaw was laid bare, and growths of bone on each side, near the joint, were removed. The muscles of the mouth were then massaged. For the first time since he was stricken Siegfried was able to open his jaws and to talk.

"I don't know just what has been done," he said, "and I don't care particularly. I am happy enough to be able to talk and chew, and do all the rest of the things that a person with jaws ought to do."

MORE "NAPOLEONS" ARE DISCOVERED

Four Grandchildren of Emperor in California and One in Connecticut

San Francisco, Cal., March 31.—Two grandchildren of Napoleon in San Francisco and one in Oakland, one in Los Angeles and one in Connecticut have been discovered since the announcement recently by George Barron, curator of Golden Gate Park Memorial Museum, that a son of the great Frenchman was buried in Laurel Hill cemetery, this city. These are Mrs. Kate Bode and Mrs. Annie Nickerson, of this city; Mrs. Susan De Lancey, of Oakland; William Gordon, Los Angeles, and Mrs. Martha Champion, of Connecticut.

The story of the remarkable family tree from the romantic flight of Princess Louise with her noble bloodied infant in her arms to escape a fire that was raging in St. Helena and the adoption of the babe by William Gordon, a jeweller of London, was told by Mrs. De Lancey by her mother on her deathbed 24 years ago, according to Mrs. De Lancey.

"She called me to her side," says Mrs. De Lancey, "and said she wanted to tell me something that she never before related. She said that her husband had told her this just before he died and he bade her never reveal it until she, too, was about to pass away. Her husband was the youngest son of Napoleon. His mother was the Princess Louise. The Princess was infatuated with Napoleon. She followed him to St. Helena, where he was exiled in 1815. Some time later a son was born to them.

"That son was John Gordon, my father. When he was an infant in arms a terrible fire broke out in St. Helena, and Princess Louise, fearing for the safety of her child, lifted him into her arms and fled through the streets of St. Helena. She entrusted him to Wm. Gordon, who was about to return to England.

"William Gordon reared the child as his own. He gave the boy the best education that riches could buy, and the boy, in appreciation, took the name of his benefactor.

"John Gordon, the boy, later went to New London, Conn., and married Miss Jones.

"He engaged in the jewelry business. Forty years ago he came to California and lived there until his death."

WOUNDED SERVANS TELL OF ADRIANOPLE

Sentries Died at Their Posts in the Snow; Men Slept in Mud and Water

ATTACKERS CREPT UP DURING THE DARKNESS

Belgrade, March 31.—The first train-load of wounded Servians arrived here yesterday from Adrianople. Their story shows that the fighting which preceded the capture of Adrianople was the most terrible of the war. The Turks fought with the courage of desperation, but the perseverance of the Servians and the excellent leadership of the commanders resulted in their gaining the day. Some of the men were very severely wounded, but the majority were suffering only from slight bullet wounds.

One of the wounded officers said: "The siege was an unbroken chain of suffering for the besiegers, which reached its climax in the bitter cold of January and February. The snow lay six feet deep and sentries died at their posts. The skin of every soldier was parched by the intense frost, while in the trenches the men's feet were cut by the sharp ice breaking every morning under their steps. They slept in mud and water, covered only by canvas."

"On some days dozens of men were frozen to death. There were snow plains for twenty miles around; no wood could be found, and even when it was brought fires were forbidden for fear of betraying our position."

All officers agree on the terrible losses sustained in the final attack. The fourth battalion of the Ninth Infantry lost 30 per cent. of its men, which was about the average for those regiments which attacked the important forts. The Turkish guns kept up a terrific fire. The Servians made three attempts against Fort Papastepe before taking that position, and then succeeded only at a tremendous cost of life from the fire of the Turkish machine guns.

Fort Topoyelou was another hard nut to crack. When within five hundred yards the Servians, who were accompanied by a Bulgarian regiment, met terrific fire accompanied by the explosion of mines. The Bulgars retired, leaving the Servians alone. The Servians again advanced under cover of darkness, creeping like cats and preceded by hand bomb throwers. The Turks did not discover them until the bomb throwers were upon the trenches. The Bulgarians then came up under command of a sergeant, having lost all their commanding officers, but again retired.

After the fort had been taken the Turks made counter attacks, and with their guns inflicted heavy losses on the invading forces.

COMMITTED FOR TRIAL FOR STORE BURGLARY

Vancouver, March 31.—H. L. Jackson was committed for trial on Saturday on a charge of burglarizing the store of the Diamond Liquor Company on Main street on the night of March 15. One man, James Hinds, is already serving a ten-year term in the penitentiary for the same offence.

Inspector McKee told of finding a revolver in Jackson's possession, and Constable Sinclair, who captured Hinds, and who was shot at several times on the night of the burglary, produced some bullets fired at the time of the chase. The bullets fitted the gun found in Jackson's possession. Although a revolver was found on Hinds and another one was found in the street after the affray, neither of them could carry the bullets found by Sinclair.

SUPPLY BILL FIRST BUSINESS OF HOUSE

Nothing Definitely Known Regarding Continuation of Navy Bill Debate

MAY TAKE UP WEST INDIAN AGREEMENT

Ottawa, March 31.—Nothing is definitely known as to when the consideration of the naval bill will be resumed in parliament. Supply will be the business taken up for the next few days, and a supply bill for a one-sixth vote of practically all the items in the estimates will be passed. Just when this will happen has not been definitely agreed upon, but the government is hopeful that it will be consented to by the opposition before the middle of the week.

Whether the naval bill will then be taken up or the House will be asked to consider the West Indian trade agreement and other government measures is not known. As there is a certain to be more fighting on the naval bill it is possible that the latter course may be adopted.

The situation in regard to the measure would appear to be that while Premier Borden is not desirous of introducing closure until it is absolutely necessary to do so, in order to get the bill through, the Liberals say it will never pass the House except under closure.

The attitude of the two parties being described, the probability is that there will be important developments as soon as it is taken up again.

FOSTER FINDS HIS MISSION ABORTIVE

Federal Elections in Australia Interfere With Minister's Reciprocity Plans

Sydney, N. S. W., March 31.—The Honorable George E. Foster, in referring to his reciprocity mission, to-day declared that he was sorry that the worry and haste of the federal elections would prove unproductive to the carrying out of satisfactory reciprocity arrangements immediately.

Nevertheless he would leave the arranging of all trade discussion with the federal government to decide upon. Canada, he continued, was most anxious to improve its trade with Australia, which was such an important outpost of the British empire.

The Canadian minister's statement, on the face of the great disappointment which he must feel at finding that the elections will interfere, to a certain extent, with his plans, is much appreciated by the press and the public generally.

THREE THOUSAND EMIGRANTS SAIL

Steamers From Glasgow Bring Many to Canada and United States

London, March 31.—Over three thousand emigrants sailed from Glasgow Saturday for Canada and the United States. The Anchor line steamship California carried 950 passengers for New York; the Allan liner Scandinavian 125 passengers for Halifax and Portland, Maine; the Donaldson liner Cassandra for St. John, N. B., with 950 passengers. Passengers for Canada were nearly all Scotch.

It was the Cassandra which met with a mishap when leaving her berth in the Princess dock at Glasgow on Saturday. A strong wind, blowing from the east, drove the ship bow-first into the dock wall, badly damaging her bows, so that she had to return for examination, and it is probable she will have to be drydocked for repairs before she can proceed to sea.

MONTREAL COCKING MAIN IS STOPPED

Forty-Two Men and Fourteen Game Cocks Taken Near Police Station

Montreal, March 31.—Forty-two men and fourteen gamecocks were captured yesterday morning in a raid made by a squad of police, on a cocking main in the plumbing establishment of Thomas Moll, 527 West Notre Dame street, within a stone's throw of a police station. The prisoners and the birds were taken to the Chabotier street station. The men were admitted to bail, to appear in the recorder's court to-morrow morning, but the birds were held as witnesses.

For the past three Sundays, it is claimed by the police, cocking mains have been held in Moll's place. The usual preparations were being carefully noted by the police. When everything was ready the raid was effected.

Several Cases of New Coats Just Arrived from the Fashionable European Centres

COATS of the most exclusive order, embracing the newest materials and the very latest styles that the ultra-fashionable are wearing. This shipment of coats should have arrived a month ago, but owing to troubles in transit, it was delayed. As these are only just here, we have marked them all at very special and tempting prices. The materials include novelty cloakings, Panamas, voiles, satin gloria, silk faille, shot corded silks, satin grenadine, chif-fon finish broadcloth, amazon cloth and various kinds of silks.

It is impossible to explain in print the beauty of these coats. The styles and designs are wonderful, and the colors are so sensible.

J. PIERPONT MORGAN.

Death struck down a towering figure when it removed J. Pierpont Morgan from the scene of his triumphs. Master of finance, whose power was not circumscribed by national limits, grim and resolute, he could not postpone even long enough to enable him to return to his home the visitation which is no respecter of persons. The end was not unexpected, the conventional cable dispatches of the last few days intimating that the financier was engaged in his greatest and most futile struggle. Even before that, no doubt, his associates knew that he was nearing the end of his course and had adjusted their vast complicated affairs so that no dislocation of financial conditions would follow the announcement of his death.

Mr. Morgan was the most outstanding figure in American finance for a quarter of a century. In fact no single individual in the world represented so gigantic a power. There were a few richer men but none exercised so much personal influence and direction over financial matters. His genius for organization, his unimpeachable integrity and conservatism and his remarkably forceful personality and powerful intellect raised him to undisputed supremacy. He was born to the purple, his father having been a member of the great London firm of Peabody & Company. He mastered the complicated details of finance as naturally as he learned to walk. His son will take up his work in the same way, and while the house of Morgan & Company has suffered a great loss, so perfect is the system under which it operates that its recovery will be rapid and complete. It has been Mr. Morgan's practice to admit to partnership young men in his employ who have shown superior ability and high character. Aside from the overpowering personality of its head, this has not been a one-man establishment. Many great transactions have been attributed to Mr. Morgan personally that were actually put through by the other members of the firm. He himself a short time ago in giving evidence before the Pujo investigating committee astonished some of the members by stating that he was unfamiliar with any of the matters with which his name was connected and that they should seek the information from his partners. Napoleon's marshals had much to do with some of the conqueror's most dazzling victories, but behind them was the colossal, inspiring personality of their mighty master. The same, no doubt, was true of the house of Morgan.

Mr. Morgan was abaker of conservative tendencies. He believed in consolidation of financial power by organized control because, in his opinion it gave security and permanency to financial institutions. He believed that combinations of industrial interests were good for industry and the country at large and, no doubt, he was sincere in his convictions. But training and environment made it impossible for him to see beyond the boundaries of the vast moneyed world in which he operated. His judgment, perfect though it was in financial matters, was necessarily imperfect when estimating the circumstances of the great mass of people upon whose resources the combinations organized by him levied tribute. He formed the United States Steel Trust and considered it a desirable and beneficial combination. He consolidated railways controlled by interlocking directorates. He brought about the amalgamation of large shipping interests operated under similar conditions and held that these gigantic mergers made for efficiency and the improvement of their product and services. But their real effect was to destroy competition and increase prices and concentrate the money power into the hands

of a few men dominated by Mr. Morgan. But he was not altogether engrossed with industrialism and finance. He was a keen and discriminating collector of art masterpieces and rare relics. Of these he bought lavishly and his private collection is the finest in the world. In fact, of late years his accumulations of rare pictures, sculpture, pottery, tapestries and other products of ancient genius, had become so extensive that many of the old-world governments grew alarmed and instituted regulations designed to prevent the wholesale depredations of the great collector.

He disliked publicity and, disliking it, had more of it than any uncrowned monarch of the generation. He was the despair of the newspaper fraternity, who respected the grim old magnate, even though he kept them at a distance. His real nature was kindly and his many charities, unlike those of some of his plutocratic associates, unostentatious. He stood between the American people and panic on numerous occasions; has restored order out of industrial chaos, as in the great Pennsylvania coal strike, and in other circumstances was a great power for good. But the other side of the ledger will show that his activities in their result have wrought much harm to the mass of the American people.

A RESULT OF THE SYSTEM.

A New Brunswick exchange makes publicity capital by stating that during the past few weeks several British Columbia farmers have settled in their province and have found conditions there to be superior to those of the far West. Also, says this contemporary, these men aver that other British Columbia farmers will soon find the wisdom of following the course they themselves have pursued.

We are cordially in sympathy with the New Brunswickers' desire to attract settlers, and particularly those who can aid them in developing their agricultural areas, but we cannot contemplate with any degree of equanimity the prospect of farmers and ranchers leaving our own borders for that purpose. From whatever viewpoint the question of settlement is looked at, it must be admitted that agriculture is after all the proper foundation on which to build the structure of prosperous country building. Manufactures, commerce, and all other ramifications of human industry but implement the old, ageless business of tilling the soil. If a country or province or state is to be self-supporting, we cannot think of anything more indispensable than agrarian development and a settled population literally "on the land." And surely nature never blessed a country with so many of her bountiful gifts as this province in which we dwell. Yet miles of virgin lands lie fallow waiting for the plough.

Why is it, then, it might well be asked, that some of our farmers are neglecting the hearts of New Brunswickers by trailing eastward to seek fresh fields and pastures new? We would not for a moment infer that any large number of our settled population will adopt this course. But why any at all? Again, why is it that so many thousands of tons of agricultural produce and of dairy produce should have to be imported annually? Surely at all countries British Columbia should be self-contained and self-supporting.

We make the direct charge that the fault lies solely at the door of the administration of this province—the Mc Bride, Bowser (or should the order be reversed?) suzerainty which has delivered most of our fair corners into the hands of the speculators, capitalists and buying syndicates. It is a significant fact that along the line of the Pacific Great Eastern Railway from Vancouver to Fort George practically every parcel of land, every lone half section is held by one of the agencies above mentioned, and all are simply holding on like leeches for speculative purposes. The net result of this policy is that the price of land has risen higher than the tall timber; more so high at any rate for a humble farmer ever to dream of purchase. Until this state of affairs is remedied our permanent prosperity cannot be assured. Neither the rhetorical verbiage of Sir Richard McBride nor the smooth platitudes of the minister of lands can make it otherwise when we are importing huge consignments of foodstuffs from Eastern Canada, Europe and the States, while the land-shark and the unscrupulous speculator fatten and browse upon the lands which might have enriched the nation in place of the individual, the community instead of the unit.

We would suggest that the agricultural commission in the course of its itinerary, look into these things with an open mind and with an open heart. We are confident that the mass of evidence would lead them to but one conclusion, and if they could but have the courage and the will to press that conclusion to the utmost, it is safe to say that any legislation that the government could bring down to implement the same would redound to the credit of the province and aid materially in the greater development of the great West.

THE RULING PASSION.

Few better illustrations for use by the temperance advocate or the total prohibitionist could be found anywhere than that provided in the local police court on Saturday last when a man who had obviously seen better days was charged with vagrancy. In the evidence it came out that the person so charged had sold his false teeth, originally costing over a hundred dollars, for a few cents in order to procure the liquor which alone could gratify his abnormal craving. Previous to this sacrifice it appears that he had got rid of for cash every rag of decent clothing that he possessed, in order to satisfy the torments of Tantalus.

The incident, which is after all one of those bizarre happenings which lead one to moralize more copiously on the failings of humanity, naturally stimulates further speculation. If, for instance, limbs were detachable, would the dipsomaniac, forced to poverty, sell a leg or an arm to a hospital or pathologist in order to buy the medium of his destruction; would the opium fiend dispense with an eye or an ear to feed the flame which inwardly consumes him. We have a horrible vision of a never ending army of crippled, maimed, and halt, and blind passing through our streets like amiable dunces seeking for solace.

There is a famous case on record of a reckless Paris boulevardier, primed with absinthe, who sold the disposition of his remains to a surgeon with a partiality for the knife. The face value, so to speak, of all that was mortal of the Parisian, was received by him in the form of a hundred-franc note with which he soon sought and found solace in the emerald liquid where lurks "the little green devil" that's a great green god.

Philosophers would tell us that on every side of life strength is bought by sacrifice and sacrifice alone. In the spiritual, the moral and the physical world, the truth is taught by divines, by philosophers, by physicians. So that Magistrate Jay's sentence of two months forced abstinence on the prisoner who sold his teeth for a mess of pottage may be taken as both a just and a merciful one.

LATE CAPT. WALBRAN.

The deepest regret will be felt throughout the province at the death of Captain Walbran, which occurred this morning. For more than a quarter of a century he had been a prominent figure in marine circles on the coast, having played no inconsiderable part in the improvement of navigation which has been one of the most conspicuous features of provincial development in that period. His connection with the old Canadian Pacific Navigation Company and subsequently with the government service, familiarized him with not only the needs of navigation but the fascinating history of marine enterprise in these waters concerning which no man was better informed. A few years ago he published his "British Columbia Place Names,"

Twenty Cases Ladies' Waists Just Opened

Values from 50c to \$5.75

THE waist department goes rapidly ahead, and well it may. The values offered are sufficiently attractive to make any woman enthusiastic. It is a hard job to be constantly breaking former Spencer values, but we realize that we must, or lose your confidence, and this we don't intend to do. Included in this shipment are values that excel in both quality and style, and we believe that the prices are even lower than you would naturally expect.

Having purchased lots of garments in the past you should be a fair judge, and we invite you to see these new garments in the windows, or if you prefer, see them in the department, and form your own opinion.

This showing includes values from 50c to \$5.75, and there are fine examples of linettes, percale, linens, lawns, muslins, nets and silks. There are plain tailored, semi-tailored with embroidered fronts, Peter Pan, middy and many other styles to choose from. With a range like this, and all sizes included, choosing should be an easy matter for you. Here is a brief description arranged in the various prices stocked:

50c VALUES

PETER PAN WAIST of percale, long sleeve and turn-back cuff, and some with sailor collars; in all sizes.

PRINT WAISTS in black and navy ground, with fine spot and stripes.

CHAMBRAY WAIST in the plain tailored style with high collar, plain and pleated fronts; front fastening with pearl buttons through box pleat.

75c VALUES

WHITE SILK in plain shirt style, with detachable collar and turn-back cuff, from\$3.50

HEAVY WEIGHT SILK, same style, at\$5.75

CHIFFON TAFFETA in striped and shot effects, plain tailored style, with detachable collar and turn-back cuffs\$4.75

Children's School Dresses \$3.75 Values, Wednesday \$1.75

The values of this sale will be appreciated by mothers, who have children returning to school. They could not wear more suitable or serviceable dresses than these, and certainly no better values at the price. Most are in navy serge, a few in plaids and checks. All are well made in neat styles, with round collars, pleated skirts, or pleated from the yoke. Some are quite loose, others finished at the waist with a band or loose belt. All are prettily trimmed with fancy white and colored braids. Just the thing for present wear. Sizes from 2 to 8 yrs.—1st Floor.

\$5.75 VALUES

The fancy style is well represented in this collection of silk and chiffon waists, and they come in plain shades of black, blues, browns, greys, white and cream; some with light and others with dark stripes. In nearly every shade that could be mentioned. They are variously trimmed with lace, net, frills and silk of contrasting shades, with either high or low necks. The chiffon waists are extremely pretty. This is the finest assortment we have yet had at these prices. They are well designed and skillfully made waists, that show really good taste in every detail.

Smart Millinery for Spring or Summer Wear

NOW that the Easter rush is over, our assistants have had a little more time to get the showrooms into proper order. During the week several large deliveries of new goods have arrived, and they now await your inspection. Having one of our buyers constantly visiting London and Paris, we are able to keep in touch with all the leading fashions, consequently our display is authoritative and portrays all the most popular ideas of the season. No matter what your taste may be, there is a shape, a hat, or trimmings that will please you, and the prices are just as low as they can be consistent with quality.

We invite you to inspect our stock, whether you purchase or not, and our staff of expert milliners will be pleased to give you advice and assist you to make a good selection. Our prices are within reach of all.

DAVID SPENCER, LIMITED

which is one of the most interesting and instructive contributions yet made to the history of this coast. A master of the science of navigation, trained in the world's greatest school, he preserved his enthusiasm to the end. The sincere sympathy of the community will be extended to the late mariner's family in their affliction.

Shakespeare, in "The Tempest," speaks of someone "suffering a sea-change." Was it possible that the Bard of Avon was prognosticating Mr. Borden's little stunt of changing front on the navy question? By referring to Hansard we find that on November 1, 1909, he said, "It is my own belief that a Canadian unit of the Imperial navy may be made powerful and effective."

Hon. G. H. Reid, high commissioner for Australia in London, has written to the Pall Mall Gazette to contradict the statement that "very many people have left Australia during the last few years to settle in Canada, particularly in British Columbia." Mr. Reid says: "During the ten months ended October, 1910, there arrived in Australia altogether 114,000 immigrants. During

that same period there departed 48,582 people. From Canada during that period the arrivals were 2,868 and the departures 2,149. The arrivals from Canada were some 500 more and the departures about 50 less than in the corresponding period of the previous year. During the month of October, 1910, no people left for Canada at all from Australia."

What would Selim the Magnificent, or that Saladin who waved his spotless scimitar unfurled before the great Cœur de Lion think, if from his Turkish Valhalla he could see the descendants of his line overcome by a race of savage mountaineers? It is hard indeed to remember that the people, now practically driven back on the walls of the last stronghold of Moslemism in Europe, were once the greatest in the world, and swept over two continents like a devastating flame.

"Not one ever begins the game of armaments; it is always begun." These are the words of a recent commentator who set himself the task of finding out who started the recent proposals through which it is declared that practically all the standing armies of Europe

are to be increased. He might also have added: "And no one ever knows when to stop."

The ship Scotia, which is watching and reporting the movements of the ice in the North Atlantic, should fulfil an exceedingly important purpose. It would, be it noted, have been utterly useless to establish such an observation before the days of "wireless," which will enable the Scotia to transmit gathered information instantly to all whom it may concern.

In Ontario, underground miners work on an average over nine hours a day. A bill has been introduced into the Ontario legislature to limit underground work to eight hours. About four thousand men, principally in the Cobalt district, will be affected.

A London exchange notes that the two houses of Parliament of Sweden have agreed to forbid the sale of intoxicating beverages in the members' restaurant. The action looks like real sentiment in favor of temperance. Sometimes when legislators make restrictive enactments along the lines they intend them for other

IMPAIRS IMPERIAL UNITY.

(London Daily News and Leader.)

"Mr. Borden would seem to stand alone among the statesmen of the Dominion, and the least concession he can make is to consult the people of Canada before he commits them to a constitutional revolution condemned by all the other Dominions. Far from doing that, it is stated that he means to force the naval bill through by introducing the closure." The first fruit, therefore, is a domestic crisis in Canada of the first magnitude. We have from the first criticized the substance of the Borden scheme on constitutional grounds. We have repeatedly insisted that it was doing an ill service to the Empire to make the navy an issue between the parties in the Dominions. Now that Mr. Borden's scheme has been pushed to the point of an acute political crisis in Canada, it will be agreed by all rational minds that it is doing the worst of services to Imperial unity."

WAS THE SURPRISE.

(Toronto Star.)

Why all this surprise if it be true that Napoleon's grandson is piling lumber in Los Angeles? Probably Napoleon's grandfather piled lumber too. It was neither of them, but Napoleon himself, who was the surprise of the family.

THE "UPLIFT."

(New York Herald.)

There can be no question that Washington society folks have joined the administration procession now they have abandoned the turkey trot for "London Bridge is Falling Down."

FIRE LOSSES SMALL

Limited to \$3,000 This Month, of Which Two-Thirds Represents Balmoral Hotel Fire.

The month of March has almost elapsed with only about \$3,000 worth of damage by fire in the city, the precise loss being \$2,500 on buildings and \$750 on contents. The fire at the Balmoral hotel last week represented \$2,100 of this total. There was \$65,500 insurance on buildings and \$19,500 on contents protected by the work of the department. Twenty-two alarms were responded to during the month. One hundred and ninety-five gallons of chemicals were used, and 5,800 feet of two and a half-inch hose used.

As soon as the estimates are passed by by-law, the attention of the fire department will be directed towards renovations at the fire halls, particularly at headquarters and No. 2 hall. At the latter half it will be necessary to remove the stables and to prepare for motor drawn apparatus at this point, and also to renew the firemen's quarters upstairs.

NO DRUNKS SATURDAY

Record of Twenty-Five Years Broken When No Arrests Made Saturday or Sunday.

A record which has not been equalled in 25 years was made Saturday and Sunday, when not a single arrest for drunkenness was made by the police force. Only three cases were on the list this morning. In two of them remands had been directed Saturday for the purpose of permitting the accused to leave town and this was done. On the third case a Hindu was fined \$20 for herding cattle on another man's vegetable garden in the north end of the city. The last arrest was effected at half-past nine Friday night.

THE KIND THAT NEVER FAILS.

The oldest, largest, strongest and best life insurance companies in the world are mutual companies. No purely mutual life company has ever failed. The Mutual Life of Canada which was founded in the year 1859 is one of the oldest and strongest companies in the Dominion. The profits earned by The Mutual Life of Canada last year were over 31 per cent. of premiums, every dollar of which goes to the policyholders. An endowment policy in this company is a good investment. For rates and particulars apply to R. L. Drury, Manager; or Fred M. McGregor, Special Agent, offices 918 Government Street.

Shipping News from Day to Day

ARRANGE FOR THIRD SHIP FROM HAMBURG

Big German Company Will Dispatch 7,000-Ton Liner C. Fred. Laeisz to This Port

NEW SERVICE VIA SUEZ NOW BEING ORGANIZED

Movements of Liners Coming in; Marama and Canada to Arrive Wednesday

According to a report received from Europe, the officials of the great Hamburg-American Steamship Company have arranged to send the 7,000-ton steamship C. Fred. Laeisz to the Pacific coast. She is to leave Hamburg on May 2, and is expected to reach Victoria about the end of July. This report shows that the big shipping company, which is to inaugurate a new service to Victoria and Puget Sound ports via the Suez Canal, is losing no time in organizing the service.

Already the Hamburg line has dispatched the big steamship Sithonia, which will be here in May. The 8,500-ton liner Saxonia left Hamburg Saturday for Victoria, and is due here in June. Arrangements are now being made for the dispatch of two more steamships to follow the Sithonia, Saxonia and C. Fred. Laeisz.

Other Liners' Movements. The Times is able to announce to-day the position of several liners which are heading for this port from foreign parts. A wireless message was received last night from the steamship Marama, Capt. Rols, of the Canadian-Australian line, and at 8 o'clock she was 760 miles from Victoria. Shipping men look for her to arrive here on Wednesday about noon. She is bringing a large list of passengers here from the Antipodes, having about 300 on board.

The wireless operator on the Osaka Shosen Kaisha liner Canada Maru, Capt. Mori, flashed the position of his vessel last night. She was 800 miles at sea at 8 o'clock. There is a little doubt as to whether the Japanese steamship will make William Head in time on Wednesday to pass quarantine. If she fails she will remain at the station until Thursday morning.

No Word on Statesman. No word has been received by the agents of the Harrison line as to whether the freighter Statesman, Capt. Bass, left San Francisco for Victoria on Saturday or not. She was expected here to-morrow, but it is probable that it will be Wednesday before she docks. A cablegram received by the Times to-day announces the departure of the old Blue Funnel liner Keeman, Capt. Conrad, from Liverpool on Saturday. When she was on this coast last it was announced that it would be her final appearance. The officials of the line, however, have seen fit, owing to the great volume of business, to dispatch the Keeman once more. She will be here late in May.

Kentra Due April 11. Evans, Coleman & Evans, agents for the Maple Leaf Line, announced this morning that the steamship Kentra, Capt. Turner, will arrive here from New York on April 11. The big freighter was reported leaving La Union, Peru on Friday last, and in his cable Capt. Turner said he would reach Victoria on April 11, providing no serious weather was encountered. The Kentra has for Victoria 357 tons of cargo, of which 450 tons is steel rails for the British Columbia Electric Railway.

RAIL STEAMSHIP IN TRANSIT.

Bound for Port Mann with a cargo of steel rails for the Canadian Northern railway, the steamship Strathgairn was reported passing Punta Arenas, Straits of Magellan, on Friday of last week. The big freighter is coming from Sydney, C. B., and is 43 days out to-day. The Strathgairn will call here to pick up a pilot to take her up the river.

PARTHIA SHOAL IS AT LAST REMOVED

Dredger Mastodon Completes the Job; Was Bad Menace to Navigators

Vancouver, March 31.—The Parthia shoal, for many years a menace to navigators, has been removed and now there is a depth of thirty feet at low tide over the site of the obstruction. The Dominion government dredge Mastodon, Captain Al. Dawe, after a couple of months' work, has succeeded in removing the shoal and is now at Wallace yards, North Vancouver, undergoing overhaul. When she resumes service she will go back to the task of dredging out the north shore of the Narrows.

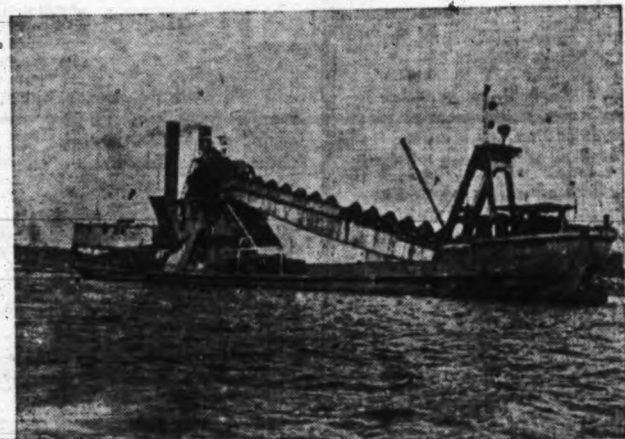

The Parthia shoal lay squarely in the fairway off Brockton Point, and deeply laden vessels had to pass to the south or north of the shoal. It was only a pinnacle, but it presented great difficulties to the dredge. As the buckets worked downwards, big boulders were encountered and one weighing eleven tons was brought up. Now that the shoal has been removed, soundings show that it is covered with 30 feet of water at low tide, and this will greatly help shipmasters.

SHIPPING INTELLIGENCE

March 30.

Astoria, Ore.—Arrived: Tank steamer Oleum, San Francisco; steamer Breakwater, Coos Bay; steam schooner Tamalpais, San Francisco; steamer schooner J. B. Stetson, California; Japanese steamer Kujia Maru and Japanese steamer Senju Maru, Portland.

CASE OF SMALLPOX DEVELOPES ON SHIP

C. P. R. Liner Monteagle Detained at William Head on Arrival From Orient

SALOON PASSENGER IS AFFECTED DURING TRIP

Mr. Buchannan, of Hongkong, is Victim; 650 Passengers to Spend Two Weeks at Head

Owing to the development of a case of smallpox during the trans-Pacific passage from Hongkong and Yokohama to Victoria the R. M. S. Monteagle, Capt. Davidson, is being detained at the William Head quarantine station. The C. P. R. liner reached the Head early yesterday morning and it is not likely that she will proceed to Vancouver until some time on Wednesday. A Mr. Buchannan, of Hongkong, a prominent shipping man in the Far East, is the passenger who has been stricken with the disease.

On Saturday a wireless was sent to Victoria from the Monteagle stating that a case of smallpox had been discovered the previous day. Arrangements were immediately made at William Head to have everything in readiness for caring for the passengers when they disembarked from the vessel. When a case of smallpox develops on a vessel during the trans-Pacific voyage it is compulsory under the Canadian immigration laws to keep the passengers in quarantine for two weeks. The vessel is allowed to proceed after being thoroughly fumigated.

650 Passengers at Head. William Head will resemble a little village for the next few weeks. Six hundred and fifty passengers disembarked from the Monteagle yesterday and after being fumigated they were allotted houses in which to spend their enforced "vacation." The majority of the passengers were Chinese, who were travelling steerage. There were only 59 saloon travellers, a number of whom were missionaries returning on furlough from their fields of labor in the

THE MASTODON

Which has removed the Parthia Shoal for many years a menace to navigators piloting steamers through the Vancouver Narrows.

Orient. If the weather is fine the stay of the saloon passengers at the Head should not prove tiresome or dreary, as Dr. Watt, the quarantine officer, is a good entertainer and will see that the time does not drag heavily on their hands. There are golf links and provisions for various other sports at the quarantine station.

Charmar Took Mails. The Monteagle will remain at William Head until about Wednesday, before the quarantine officials will hand over her practice. In order that the mails may suffer no delay the steamer Charmar was dispatched from this port yesterday afternoon at 2.30 o'clock to take aboard the sacks of letters and papers, which she brought to Victoria. The Vancouver and English mails were transferred to the Princess Mary, which cleared for the mainland port at midnight. The Seattle mails will be taken out by the Princess Adelaide this afternoon.

When the Monteagle receives her clean bill of health she will steam for Vancouver, omitting Victoria. The cargo consigned to this port will be reloaded from the Terminal City. After the passengers have served their time at William Head they will be brought to Victoria and permitted to proceed on their various ways.

Monteagle is Unfortunate. The Monteagle is the most unfortunate liner plying the Pacific in regard to the development of smallpox aboard. This is about the third case she has had in the past two years. After an uneventful run to East Coast point, the C. P. R. steamer Charmar, Capt. Brown, arrived in port yesterday. She is sailing for Comox late to-night. The Tea, Capt. Gilliam, of the C. P. R. fleet, leaves for Clayoquot and her way ports to-morrow night.

AROUND THE SHIP CHANDLER'S STOVE

"I well remember some twenty years ago when I was second mate of the old Glen Roy, which has since gone to Davy Jones' locker, how we picked up five men, the only survivors of a crew of 14 of an American schooner." This is the way in which an old salt started a yarn this morning at the waterfront ship chandlery, where a number of old seamen had gathered around the comfortable old stove.

"You see, we were running down the Atlantic before a gentle southeaster," continued the old salt. "All of a sudden the glass began to drop and she began to look bad over to the westward. The old man came on deck and says, 'We're in for a stiff one all right.' Sure enough, she started to breeze up and soon we had a howling gale from the westward. The shipper tried to get the old packet snug before the gale hit us, but the hands for'ard had only taken in the royals and the topgallant sails and the flying jib. All hands worked hard to reef her down, but when the first puff struck us the old packet heeled over and started off. The rising wind ripped all the other sails to ribbons and we were left boating before the storm under bare poles.

"All through the night it blew fiercely, but in the morning the wind began to drop. We were all started when the lookout sang out early in the morning that he had picked up a helpless ship with his glass. The old man ordered both watches on deck, and although it was blowing hard he started to cram on sail and turned the ship in the direction of the derelict. She was a long way off and it took us some time to run down to her. The old man decided to keep to leeward of her. We saw five men on the poop of the schooner; three were lying down and the others were

varying to us frantically. We shot two rockets, but both of them missed. "When we were almost astern of the schooner and some of the hands were busy getting one of the boats ready for lowering, the old man started shouting orders. The sea had been nasty, but he caught sight of a tremendous wave coming straight at us. He tried to get the ship about and meet it head on, but he found he could not. I watched that sea. It struck the schooner squarely and submerged her. Although the schooner was waterlogged and sluggish in a sea-way, she bobbed up a short distance away. Her decks were cleaned and not a man was to be seen aboard her. On came the sea. It struck us beam on and shook the ship from stem to stern, almost shaking the masts out of her. However, outside of the dinging of the starboard bulwarks, we suffered no damage. We were thinking about the poor fellows who had been lost from the schooner, when the big wave came aft. He told the old man that the five men were lying unconscious in our lee scuppers.

"Well, you can imagine our surprise. We never expected to see those fellows again. They were brought to the cabin and the skipper got out his medicine chest, and some whiskey and brandy soon brought them round. It was not long before one of the men, a burly Scot, was on his feet reeling off the old chanty:

"Oh! whiskey is the life of a man;
Whiskey Johnny.
Oh! whiskey in an old tin can;
Whiskey Johnny."

"I can tell you that the sea which saved those men was the biggest I ever saw, and I have never since heard of men being saved in such a remarkable manner."

GEORGE STARTS NEW SERVICE TO STEWART

G. T. P. Steamer Gets Away To-day With Many Passengers; Prince John to Start

Departing on her first trip to Stewart, the G. T. P. steamer Prince George, Capt. Donald, left port at 10 o'clock this morning. From now until late in the fall the big three-stacker will ply the Portland Canal route, which, although very quiet at the present time, shows promise of awakening before much time has elapsed. The George will maintain a weekly service to that port. The Prince Rupert, Capt. McKenzie, which will be back in port on Wednesday, will inaugurate the new service to Granby Bay when she clears on Thursday.

Several of the passengers booked here on the George are going through to Stewart. N. Johnston and D. Critchley are among the saloon passengers who will continue on the vessel to her northern terminus while there are a number of "bookums" in steerage. T. N. Bolitho and T. G. Bolitho are booked to Hazelton, and Mrs. D. McNeil, H. Menzies and O. P. Lambert will disembark at Prince Rupert.

The steamer Prince John, Capt. Wearmouth, also of the G. T. P. fleet, arrived in port yesterday afternoon from the north. She is to inaugurate the new service of the company to Prince Rupert via the Queen Charlotte Islands, thereby giving a direct connection between Victoria and Vancouver and Skidegate. The John leaves here on her initial trip on Thursday night at 10 o'clock.

Bound for Victoria and other North Pacific ports, the Harrison liner Crown of Galicia was reported steaming from Glasgow on Friday last.

RUSSIA CONSPICUOUS OBJECT IN MERSEY

Liverpool, March 31.—The Empress of Russia, the largest vessel in the steamship service of the Canadian Pacific railway, which begins her maiden voyage to-morrow, has been a conspicuous object of interest in the Mersey this week-end, and the ship was visited to-day by a company of two hundred persons from various British ports and commercial centres.

Chairman Robertson, of the Liverpool dock board, in a brief speech at the luncheon on board wished good luck to the new ship, and afterwards the vessel was inspected throughout. Tomorrow's voyage comprises a journey around the world, the ship afterwards joining the company's Vancouver-Hongkong service.

"YOU'LL DO BETTER AT
THE WEILER STORE"

WE FURNISH THE HOME COMPLETE

NO DETAIL TOO SMALL TO
RECEIVE CLOSE ATTENTION

No matter where you go, you can't get better values for your money, neither can the working man have better terms offered him than at the Weiler Store. Our policy is to supply the best furniture that is produced on this continent, to sell it at the lowest possible prices, to back up every piece we sell to give the purchaser the greatest satisfaction; and last, but not least, to offer our customers the most liberal terms.

Don't worry about the financial part of home furnishing, we will take care of that. Call in and let us tell you more about our special offer for the convenience of working men.

JUST WHAT YOUR WIFE
WILL APPRECIATE

THE HOOSIER SPECIAL
SAVES MILES OF STEPS
FOR TIRED FEET

THE "HOOSIER SPECIAL" is the most convenient and dependable cabinet we know of. The illustration gives a good idea of what it is like, but you must see it before you can appreciate its value. Price \$42.50
A VERY FINE LINE is made of selected hardwood and finished in its natural color. This gives to the furniture a very clean and refreshing appearance. The cupboards, drawers and bins are fitted up in a very convenient manner, and will save much unnecessary trouble. Price, \$35.00 and \$40.00
A LOWER PRICED CABINET that we can recommend is made of well seasoned fir and is finished in the golden color. It is well made and fitted up in a very convenient style. Price only \$25.00
SMALLER CABINETS AND TABLES IN A VARIETY OF STYLES

BRASS RODS

OVER 20,000 FEET NOW IN STOCK

One of our customers expressed surprise at the fact that we kept brass rods in stock. This was only a few days ago, and we have been wondering why such an impression could have been possible.

No doubt the fault is our own—we have not advertised them lately. The fact is that there is scarcely an item required in your home that cannot be supplied at the Weiler Store. Brass rods are here in all thicknesses, and the prices are the lowest possible. Any length can be supplied. Let us know what you are wanting.

THE WANT OF A SMALL
ITEM OFTEN MEANS
MUCH INCONVENIENCE

STRAINERS
come in a variety of sizes and styles. Prices 10c, 15c and 20c

SOUP STRAINERS at each, 25c, 20c and 15c

IMPERIAL MEASURES in enamelware; sizes from half-pint up to 1 gallon. Prices from 40c each, up to \$1.25
SAUCEPANS in the square-sided style at each, from 40c up to \$1.00

PROTECT YOURSELF
AGAINST THE FLY—HE
WILL SOON BE HERE
IN SWARMS

It is better to keep him on the outside of the home than to have the trouble of driving him out when once he has got in.

For this reason early buying of fly screens for the doors and windows is advisable. We have a splendid stock, including all sizes and a good assortment of styles, and our prices are easy.

SPORTING NEWS

QUEBEC DEFEATED IN CYCLONIC BATTLE FOR WORLD'S HOCKEY TITLE BY COAST CHAMPIONS

Victoria Outplayed Visitors at Every Stage of the Game; Easterners Lucky to Score; Record-Breaking Crowd Viewed the Game; Score 6 to 1

Winning the world's championship before the greatest crowd that ever witnessed a hockey match in the capital, Victoria proved conclusively that they are a superior hockey aggregation by decisively defeating Quebec's Stanley cup holders six to one at the Arena on Saturday night. There was nothing new in the victory and the score about represents the margin that the Coast champions had on the best team that the N. H. A. boasts of. It was a clean-cut victory for the Paterson cup holders, and it proved a delicious victory for the forty-five hundred hockey enthusiasts who jammed every corner in the spacious Arena. The win gives Victoria all honors in the world's series for 1913 and backs up the claim of the Coast fans that the fastest hockey is played in the P. C. H. A. Victoria led throughout and had Quebec whipped to a standstill from every angle.

Beaten at Every Stage.
After Thursday night's game, which by the way, Victoria deserved to win, the dopesters did not figure Quebec seriously in the running and those on the inside could see the weakness in the Eastern champions. As against a machine-like aggregation that captured the Coast honors for Victoria, Quebec's much vaunted speed and scoring ability soon wilted. The Easterners were beaten at their own game, checking, and with their chief scorers, Joe Malone and Tommy Smith, helpless, the Eastern title-holders were a beaten team. Victoria not only beat Quebec on the defensive, but they went out and scored four goals in a row, playing six-man hockey for the lead that Quebec was never able to overcome. It was the terrific attack that Victoria opened the game with that really won the championship for the Senators. Quebec faltered under the unexpected onslaught and being unable to score under Eastern rules and with but six men a side, their efforts waned, and towards the finish it was simply a question of how much Victoria would win by.

Crowd Went Wild.
Nothing could have tickled that tremendous crowd more than to see the score mount upwards and every goal drew forth an ear-splitting roar that almost tore the roof off the Arena. The rink was a perfect badium during the progress of the match and every feature added to the volume of the cheering. The goals were the signals for perfect outbursts, hoots and groans being heaved high into the air as the "thin red line" tore through Quebec's much-vaunted defence for the goals that meant a world's championship for the capital. Old and young combined in the riot of happiness that prevailed and with every score the crowd belled forth its approval. The determined attack of the Senators added to the excitement and while Quebec hung on, fighting with the tenacity of bull-dogs, they were unable to with-

Sweater Coats and Underwear

That Will Afford Ample Protection from the Cold Winds

SMART SWEATER COATS, made entirely from selected wool, are to be had in white and a variety of colors. They are made in the coat style, have a wide roll collar and have a very smart appearance. For outing purposes these are just the garments that are wanted. Suitable for men and women. Prices from \$8.00 each, down to \$4.00.

SERVICEABLE UNDERWEAR in wool, mercerized cotton and silk mixtures, etc., are here in the medium weights suitable for the present season. All sizes, and you may have combinations, drawers and vests at, per garment, \$1.00 up.

stand Victoria's unceasing rushes upon Moran's citadel. The game was one in a thousand, and the attendant excitement, coupled with the importance of the game, will furnish a picture long to be remembered by those who were fortunate to witness the final. Victoria's final cheer when the timer's shrill blast told that the game was over, was never equalled on the island, the crowd leaping the railing and carrying off the world's champions shoulder high. In the dressing rooms of the Senators the joyous scenes were repeated, the players being deluged with congratulations, while every fan who could gain admittance grabbed a souvenir of the game. Socks, gloves, pads, everything went and the players had a hard time retaining their championship jerseys.

Started Six-Man Style.
Quebec won the toss and decided to play six-man hockey to start with. The Easterners evidently figured on running up a big score in the first half under the abbreviated rules, and play defence for the remainder of the game. Quebec did not imagine for a minute that Victoria would prove the victor at the six-man style, yet this was the case. Time and again the Senators' forward line ripped through the Ancient Capital defence for a shot on Moran, and it was only the sensational work of the Quebec net custodian that kept the score down. Quebec tired fast under the steady hammering, and their boasted speed appeared small-like when compared with the cyclonic attacks of the Victoria sextette. Penalties failed to stop the Coast champions, who pounded ahead as so many demons in their efforts to score. Individually Victoria outshone the Quebecs, and when it came to team work the victors were never in the hunt. The first period ended with Victoria a goal in the lead, the Senators adding three more before the seven-man style of play was started. With the arrival of the rover on the ice, Quebec's chances went a-glimmering.

Quebec's Lucky Score.
Manager Patrick carefully protected the Victoria net for the remainder of the game and Quebec's lone score was a lucky effort, Smith passing from behind the Victoria net, the puck striking Lindsay's skate, lodging just inside the bar. Victoria added two more goals in this final session, the Senators never tiring for a moment, while the visitors were a sadly disorganized team, the players fighting with one another as the Victoria total mounted. The

BEATEN BY A BETTER TEAM

Quebec Captain Gives Victoria Full Credit for Wonderful Hockey Aggregation; Best in the World

"It is no disgrace to be beaten by such a team as Victoria boasts of," stated Joe Malone, captain of the Quebec team, after Saturday night's game. "I think that the coast champions are the greatest collection of hockey players in the world, and think that they are due all honors as the greatest aggregation of 'Ice Dogs' ever seen together." The entire Quebec team concurred with the captain of the Ancient City club and the vanquished players were the first to force their way through the crowds to grasp the hands of the victorious Senators' septette.

Victoria Had Class.
"I thought, after we had won Thursday night's game that we would have a chance to win the world's title, but there is no disputing the fact that Victoria showed more class than we did in the series, and are fully entitled to their honors," continued Capt. Malone. "The Quebec team were a little tired after their long journey across the continent, and I myself felt as if

I was going stale from the amount of hockey that we have played here. The fact remains, however, that Victoria has had just as strenuous a season as the Quebec Club, and while they did not have to stand the hard journey to the coast, their decisive win on Saturday night tells of their superiority. We have no complaints to make on the officials, and must say that we received every possible favor from Manager Lester Patrick. We played half the series under the Eastern rules, and were beaten by a better team, that is all there is to say."

En Route to Quebec.
Quebec met the Western All-Stars at Vancouver to-night, and then hiked Eastwards. The team has a proposition to play the Art Ross All-Star team at Calgary, and may do so. Three of the team reside at Brandon, the trio being Hall, Munnery and Creighton. Crawford resides at Prince Albert, while Jack Marks and Tommie Smith will also drop out of the party before it reaches Quebec.

BAPTIE'S NEW BARREL RECORD

Leaping twelve barrels, Norval Baptie broke the previous world's record held jointly by Morris Wood and Baptie himself, on Saturday night at the Arena. Baptie was in rare form and cleared ten barrels with a backward jump, this also, being a record. Baptie will reside permanently in Victoria.

DETAILED STORY OF THE BIG GAME

Scoring a complete shut-out against Quebec, playing at their own rules, and then resting content for the second half of the match with the long lead of four goals Victoria wrested the title of world's champions from the Stanley Cup holders. The one-sided score gives no suggestion of the ferocity of the struggle as waged by both sides throughout the entire contest, but clearly indicates the superiority of the winning team. Unlike the previous match Victoria got her fair share of the lucky breaks.

From the drop of the hat it was to be seen that Lester Patrick's braves did not intend to let there be any doubt about the merits of the victory, and when Skoner Poulin in the very first minute spit out a handful of teeth without stopping skating, the tension at which the men were going was indicated. Only one goal was scored in the first period, but in the ten minutes of six-man hockey in the second period Victoria got three more past Moran.

It was just an instant before the bell rang that Quebec batted its lone counter past Lindsay and in the third period scored the only two points. **Play Started Fast.**
The first ten minutes of the match were nerve-racking, as the puck swept up and down the ice at a terrific rate without advantage to either side. Victoria showed a rebound after a most scientific two-man combination was kept at top speed throughout the first period. Several missed passes at centre ice and wonderful checking by Hall and Munnery kept Victoria from scoring for 13 minutes and 25 seconds, when at last Dunderdale netted a goal on a rebound after an almost counter on the Victoria team had chased one against Moran's guards within two seconds. The roar which went up from the crowd was the most terrific cheer ever heard in Victoria.

Victoria Scored First.
The period ended with the score 1-0. Victoria had outskated the speedy easterners throughout and had showed perfect two-man combination. Lester Patrick used excellent judgment in keeping his forward line at top speed by switching around his men from forward to defence. It was a different matter when he went down the ice in each successive rush. Lester Patrick drew an unaccustomed penalty for tripping in this period and exhibited an equally unaccustomed flash of temper when no goal was allowed on a beautiful shot after Lester had taken the pass on the side. Dunderdale also went to the fence for swatting Hall. This kept mauling each other all night.

Second Period.
Lester Patrick scored Victor's second goal about four minutes after the second period began, taking the puck from a Quebec player in front of his own goal and outskating and outwitting four successive easterners before he slammed the rubber past Moran. The six-man game was still being played and frequent substitutions kept Victoria's forward line fresh all the time. Poulin and Rowe collided in mid-ice and it looked as if Poulin was down for the count until somebody passed the puck in front of him and he was up like a flash poking and harassing the life out of every Quebec man who attempted to keep the rubber to himself for an instant. Dunderdale scored again on a pass from Lester Patrick in one minute and twenty seconds. Genge netted the last one before the change to seven-man rules, when he swept down the ice like a huge tornado and, circling away from Hall and Munnery, shot the puck in from the side like a bullet. Genge went off immediately after this for throwing Hall. Victoria was not half so smooth as Quebec in its rough stuff. Lester usually got in the first jab unobserved but the homeplayer's retaliation never failed to catch even the referee's eyes. Dunderdale and Poulin had another collision just before the change from six to seven-man hockey and Poulin again seemed upset, but was right there when Referee Phillips dropped the rubber for the continuation of play. The sudden change from the six to seven-man style slowed up the play and the players of both teams showed a tendency to fall over each other for a few minutes. Genge played rover in the altered style and Crawford dropped back for Quebec. Genge made the first rush after the change and had a clear shot on goal but overshot the puck. Big Bob played the game of his career Saturday night and it took the Ancient City's fastest skaters to keep pace with his mighty rushes. Rowe went off for tripping and unlike the method under the western rules, Victoria had to play a man short. First Moran and then Lindsay was called upon to make a sensational stop with men all about them but both accomplished the trick. Just as Rowe came on there was a scrimmage in front of Lindsay and when the net was untangled the puck was found inside the posts. Smith is believed to have been the last Quebec man to touch the rubber. This score was made just before the bell.

Game Grew Rough.
When play was resumed after Norval Baptie, Frenchie Menard and Hendricks had done their three ring circus act Victoria was seen to have recovered the old time three-man combination which featured their play all season. Quebec began to grow rough now that the game was lost and scraps occurred within five minutes between Hall and Dunderdale, Munnery and Rowe, Crawford and Poulin, Hall and Progers, and Genge and Hall, but the first penalty was when the last two named came off for two minutes each. While all this fighting was going on Lester Patrick seized the puck and after Munnery collided violently with the ice in a typical fierce effort to smash the crushing opponent he drew Moran out of his goal and slipped the puck by him for Victoria's first goal since the change of rules and her fifth of the game. The time was 7:24, so that 17 minutes and 24 seconds of seven-man hockey were played before

ALL-STARS ALSO WON

Vancouver, B. C., March 31.—It was an All-Westerners' night Saturday. While Victoria was busy piling up a 6 to 1 score against Quebec, the Western All-Stars were equally industriously working at the arena here annexing the last game of the series with the Eastern All-Stars by a score of 2 goals to 3.

WARDS LOOK INTERMEDIATE TITLE-WINNERS

Whitewashing the Victoria West club at Macaulay Point on Saturday afternoon in the crucial game for the intermediate title of the Island League, the North Ward eleven scored a big win over their old time rivals, the whistle blowing when the score was one to nil in favor of the Wards. The game was very exciting throughout, though the unfavorable weather marred the play to a certain extent, the red play to a certain extent, the footing being very treacherous. J. Cummins, Wards' inside right, scored the winning goal for the champions about fifteen minutes after play started, and there was no further scoring. The Wards tried hard in the closing moments of the match to tie the score, but the greasy ball and the splendid defence put up by the Wards prevented the green shirts from tallying.

Should Win Out.
Wards have still two games to play, but are looked to win both of these fixtures. The teams were: North Wards—Humber, H. Ord and J. Ord; Menzies, E. Ord and Mowher; Thomas, Howden, Pike, Cunningham and Hopkins. Victoria Wests—Hewitt; Ross and Stewart; Brown, McKennie and Baker; Plump, Mulr, McDougall, Shakespeare and Cummings. Referee, J. Tunney.

WESTS WIN OVER PICKED SOCCER TEAM

Showing superiority at all times, the Victoria Wests, champions of the Island League, defeated an All-Star eleven at Beacon Hill on Saturday afternoon, the final score, 4 to 2, about representing the play. The champions played grand football at every stage of the game.

Both teams were minus several of their stars, the Wests lining out with three of their regulars missing, while the representative eleven did not turn up as selected, changes being necessary which weakened the All-Stars' attack. Caskie was forced to drop out of the game in the first half, and the All-Stars were further weakened. Weather conditions were very disagreeable, the slippery ground making fast play impossible.

McDonald Scores Three.
Victoria Wests started scoring from the start, despite a strong wind which was blowing down the field, McDonald scoring from a corner kick, which Sherret neatly centred. McDonald again tallied, while Baker made in three for the champions. The All-Stars braced and on a rush scored their first goal on a nice shot by Douglas, just before half time.

The second period was a repetition of the opening stanza, the champions registering three goals, McDonald getting his third score, while the All-Stars manager scored once. McDonald was the star of the game, while the Kerley boys performed well.

The teams: Victoria Wests—Goal, Brynjolfsson; backs, Whyte and Cowper; halves, Maxwell, Petticrew, Stewart; forwards, Sherret, Youson, McDonald, Okell, Baker.

Allies—Goal, Gillespie; backs, Sherret and Jones; halves, Niven, Whyte, Proctor; forwards, Caskie, F. Kerley, Pilkington, A. Kerley, Douglas. Referee, A. Lockley.

YACHT CLUB MEETS TO-NIGHT

Reporting a great increase in the membership of the club, the secretary of the Royal Victoria Yacht Club has called a meeting of that organization for to-night in the Real Estate Exchange board rooms, when a date for the opening of the new club house on Cadboro Bay will be selected.

AMATEURS TO PLAY AT ROYAL ATHLETIC PARK

Sam Lorimer will again be chosen president of the Victoria Amateur Lacrosse Association, which will hold its annual meeting at Appleby's pool room to-night. The club has lines out for half a dozen crack amateurs who have recently made their residence in the capital, and President Lorimer looks for a big year. Secretary Watson reports that the club has again made arrangements to play on the Oak Bay grounds, and the first practice will be held there next Sunday morning, when a full turnout is looked for.

SPORTING NEWS (CONTINUED)

BAYLEY EASILY DEFEATS REILLY HAD BIG MARGIN THROUGHOUT

'Frisco Lightweight on Ropes for Greater Part of the Time; Champion Very Aggressive; Cyclone Scott Beaten

Steveston, March 31.—Joe Bayley is still lightweight champion of the Dominion. In a rather tame battle at the local Arena here on Saturday afternoon, the Victoria lightweight scored a hollow victory over Charlie Reilly, the 'Frisco contender for the title, and retained his laurels as the best 133 pound fighter this side of the border. Not only that, Bayley won with such ease that the Victoria boy's title must now be regarded as one that has been fairly earned, and one which Bayley is quite capable of defending against the best lightweights in the game to-day. In defeating Reilly he whipped a man who has secured a decision over Willie Ritchie, the present holder of the world's light-weight honors, and the ease with which the Capital City champion beat Reilly shows that Bayley has every claim to be called champion.

Nearly Called Off.
Twenty-five hundred fight fans attended. Autos brought the majority of the crowd from Vancouver, while a special excursion drew over a hundred from Victoria. The fight was late in starting, because of the unfinished condition of the Arena when the fight fans arrived there, and also because of the threatened rain. At 9 o'clock Saturday morning a wire was received stating that the fight had been called off, but later reports reversed this news. The bout attracted great interest, and a representative gathering of sportsmen from all sections of the country was on hand to witness the lightweights in action. Bayley entered the ring a ten-to-eight favorite, while

broken hands alone prevented a knock-out, for the title-holder rocked Reilly with a dozen blows that would have scored a sleeping potion had not the smashed members weakened under the continued battering against Reilly's face and body. The challenger appeared only too willing to fall into a clinch with the result that Referee MacDonald for the better part of the time, was pulling the little fellows apart. Bayley endeavored to fight himself free of Reilly's grasp on numerous occasions, and was warned by the referee that he would have to stop. Reilly's tactics got him in bad with the crowd, who pleaded with him to open up and fight.

One-Sided Fight.
Never has Bayley used his left hand to such advantage, his judgment of distance being excellent. He rarely missed a punch. Reilly, on the other hand, when he did waken up in the closing rounds, swung wildly with the evident intention of landing a hay-maker. Whatever action was provided was started by the champion, and Bayley it was who finished these little arguments. Reilly was a veritable hedge-hog in his defense, for the greater part of the time being up against the ropes with Bayley slugging away in the hope that Reilly would come out of his shell. Reilly's much vaunted foot work did not show, except when he skipped around the ring to rid himself of his tormenter. The fight was a disappointment as a championship affair, Bayley being the only one willing to fight.

Let From Start.
Starting out from the first round, Bayley took the upper hand. Reilly attempted a few leads in the opening against the ropes and hanging on desperately. The chief of police protested to Referee MacDonald about the boys hitting in the clinches, and both were warned to break free. Bayley kept his left stuck in Reilly's face continually through the eighth and ninth rounds, the 'Frisco boy weakening up a bit during the tenth round, and bringing the crowd to its feet when he started after Bayley. His attempt was only a flash in the pan, however, and he lapsed back into his stalling tactics when Bayley put over a couple of stinging left jabs.

Finished Strong.
Bayley had everything his own way up to the fourteenth when Reilly came back for another flash, and the fifteenth round witnessed the best mixing of the contest. Reilly started out in a do-or-die attempt to put over a hay-maker, and Bayley showed his foot-work by having the 'Frisco veteran swinging like a gate. The windup found Reilly again seeking refuge under his arms from Bayley's unceasing attack, and a thundering cheer greeted Bayley when Referee MacDonald raised the champion's arm at the close of the battle. The champion was practically unmarked at the close, while Reilly bore many evidences of the terrific battering he had withstood.

Weeks a Winner.
Cyclone Scott lost a game contest to Billy Weeks, the Vancouver middle weight, the Victorian making a strong finish after Weeks had piled up a big lead in points at the start of the fight. This bout went six rounds, and Scott had the advantage towards the close, but could not make up the ground he had lost at the start of the fight.

Many Challengers.
A host of aspirants for Bayley's title were introduced. The list included Sammy Good, Tom Moore, of Nanaimo; Bobby Evans, Danny O'Brien, of Portland; Johnny Moore, of San Francisco, and Ernie Barriera, of Vancouver. Frank Barriera, the Vancouver welterweight, was introduced, "Mysterious" Billy Smith, of Portland, clambered through the ropes and challenged Tommy Burns, while Frank Russell, of Seattle, also challenged Burns.

OLD COUNTRY SEMI-FINALS

London, March 31.—The semi-finals of the English Football Association Cup were played Saturday, the games showing much interest by huge crowds. Special trains were used to carry supporters. Only one decision was reached, Aston Villa beating Oldham Athletics by the only goal scored while the game between Sunderland and Burnley unexpectedly ended in a scoreless draw. The replay will be next week. The following are the results of the league games:

First Division.
Bolton Wanderers 0, Notts County 0; Bradford City 4, Everton 1; Chelsea 1, Blackburn Rovers 0; Liverpool 0, Manchester United 2; Manchester City 2, West Bromwich 1; Newcastle United 2, Nottingham Forest 0; Sheffield Union-Middlesborough, postponed. Woolwich Arsenal 2, Sheffield Wednesday 5.

Second Division.
Clapton Orient 1, Grimsby Town 1; Glossop 1, Bury 1; Hull City 1, Fulham 1; Leicester Fosse 5, Blackpool 0; Notts Forest 1, Huddersfield Town 5; Stockport County 1, Wolverhampton Wanderers 2; Lincoln City 3, Leeds City 1.

Southern League.
Westham United 2, Brantford 1; Watford 1, Gillingham 1; Coventry City 4, Northampton 3; Plymouth 0, Southampton 1; Swindon Town 3, Stoke 2; Crystal Palace 4, Reading 3; Exeter City 1, Millwall Athletic 4; Merthyr Town 0, Norwich City 1.

Scottish Football.
In the semi-finals of the Scottish Cup, Falkirk beat Hearts of Midlothian by one goal to nil, at Ebrox Park, Glasgow. The game between Clyde and Raith Rovers at Tynecastle ended in a draw, one all.

Scottish games results: Morton 1, Dundee 1; Patrick Thistle 1, Hibernians 2; Hamilton Academicals 2; Queens Park 1.

In the Army Cup final, played to-day the second Welsh Regiment defeated the First Gloucester Regiment by a score of 3 to 1.

Rugby.
Blackheath 24, Birkenhead 9; Newport 12, Bristol 0; Northampton 20, Rugby 0; Cardiff 4, Swansea 25.

GREATEST OF ALL TIME

LESTER PATRICK

Manager of the World's Champions, whose sensational "come-back" this season enabled Victoria to gain a place in the fight for the World's Championship. "Der Captain" is without a doubt the cleverest defence man playing the game to-day, a hockey general without an equal, and is considered by many, the greatest hockeyist who ever laced on a pair of skates. It will be welcome news to the fans to know that Manager Patrick will continue to lead his World's Champions next season.

BEES WILL MEET ARCADE CLUB TO-DAY

Somewhat disappointed because of the rain on Saturday, Mike Lynch and his hired help were on the grounds early this morning at the ball yard, trying to make up for lost time. Lynch is rushing his men during the warm days and had the entire squad on the job to-day, a practice match with the Arcades also being booked. The Bees have made a clean sweep of their practice games to date, and Lynch has not let any of his twirlers cut loose. This, in comparison with the work of the other Northwest League clubs, which have been beaten regularly, is a big feather in the cap of the local management, and the Bees may be looked to get away with a flying start.

Pinky Grindle's leg is bothering him a bit, but the "pep" kid should be round in a few days. Harry Meek will report this week, and when the fence buster does show up, Lynch will have no less than five backstops to pick from. It is probable that three of the quintette will be given births. Meek's batting alone reserving him a place on the club, if only as pinch hitter.

Schultz looks the pick of the new twirlers, and he will probably stick, while Kaufman, Smith, Wilson, and Kanthener also look good. There are about four good youngsters battling for the sixth berth on the twirling staff, including our own Bobby Steele, and the latter looks to have as good a chance as any for the job. Steele would prove a good utility man also, being a splendid fielder and a pretty fair stickler.

Everett, Wash., March 31.—The Tacoma Tigers again wallowed Everett yesterday by a score of 5 to 0. The game saw Joe McGinnity, the former "iron man" of the New York Giants, in the box, and he pitched with the same judgment that made him famous in the National League.

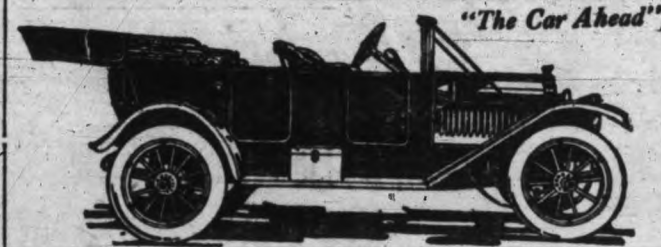

Seattle Giants were beaten by University of Washington on Saturday. Boatman, of the Varsity team, had 15 strike outs.

ENGLISH CUP SEMI-FINAL

London, March 31.—The replayed semi-final game between Sunderland and Burnley, which resulted Saturday in a scoreless draw, will take place on Wednesday next at Birmingham. The winner of this game will meet Aston Villa at the Crystal Palace, London, April 19, in the final.

RECORD ENTRY.

Preparations are being made by officials of the Victoria Kennel Club to handle over three hundred entries at the coming Bench Show, which will be held on April 16, 17 and 18. In the show building at the Fair grounds. Over one hundred entries have been received to date, and a large entry is expected from Vancouver, Seattle and other larger cities. Entries will close on April 1 and prizes will be shown in "Peden" Brothers' show windows on April 5.

MAYOR THOUGHT RULE SHOULD BE FOLLOWED

Was Outvoted by Fellow Commissioners in Making Police Appointment

In connection with the appointment of Sergeant Webb on Saturday in succession to the late Sergeant Claydars, Mayor Morley voted against the motion of his fellow commissioners, not because he had any objection to the

new sergeant, but because there was a departure from the rule of seniority, which he believes should govern an appointment of this character. The only reason for breaking away from this practice is in cases where there may be just cause for departing from the rule on account of misconduct. As Chief Langley had no objections to raise against the men who were senior to Sergeant Webb, the mayor went on record against the appointment, which it is alleged was cut and dried at the time. Of the applicants Abbott has 17 years to his service, and three good conduct stripes; Wood, 15 years; Blackstock, 15 to 16 years, and Fry, 11 years.

It is stated this morning that the Voters' League will take the subject up, the members objecting to the commissioners departing from the usual procedure of appointment by seniority.

WARD FIVE RATEPAYERS JOIN THE PROTEST

Another Meeting in Saanich to Object to Appointment of Engineer

In continuation of the fight over the appointment of Mr. Topp as municipal engineer of Saanich, ratepayers of Ward Five have called a meeting at the Royal Oak hall on Wednesday at 8 p. m.

The reeve and Councillor Quick have been invited to be present, and a full discussion is expected. As there is a close division of feeling in the ward concerning the appointment, proceedings are not likely to lack the interest which has prevailed at other meetings in the municipality. In Ward One a meeting will be held of the Ratepayers.

APARTMENT HOUSE ON SUPERIOR STREET

Permits for Month of March
Total \$565,075; New Houses
on Finlayson Street

Another apartment house is to be erected, its location being on Superior street. It will contain 17 rooms. The cost will be about \$4,500. R. J. Martin is the owner, and W. T. Whitehead the architect. Smith and Richards have the contract for the building.

A. J. Wise is constructing three small houses of five rooms each, costing \$1,200 each, on Finlayson street. Of permits issued to-day were for a house at 3066 Cedar Hill road, for James Jones, and for a house on the corner of Empress street and King's road for Arthur Levy, which will include a garage as well. Rochester and Sankary are the architects, and the cost will be \$2,000. The pastor of the First Presbyterian church, Rev. J. G. Inkster, is building a residence on Begbie street, two stories and basement, at a cost of \$2,000 from the designs of Jesse M. Warren.

The total building permits for the month of March will be the satisfactory total of \$565,075, or a total for the quarter of \$1,340,005. This figure includes only two large permits, showing that the number of residence and apartment house permits continues to be large.

THE NELSONS AND TRAFALGAR

The death of Earl Nelson reminds a correspondent who knew the family in Wiltshire that the pronunciation of the word Trafalgar is still a matter of controversy. Lord Nelson himself, the members of his family, and the people in the countryside, have always been accustomed to speak of Trafalgar House, with the accent very marked on the last syllable of the word. Whether they would do the same in asking their way to Trafalgar Square is questionable. The truth probably is that the first line of the famous song, "The Death of Nelson," settled the matter once and for all for the majority of people. Browning's Trafalgar, with the accent on the last syllable, in his "Nobly, Nobly, Cape St. Vincent," made no difference. "The Death of Nelson," written by John Bramham, was in the book of an opera called "The American," produced at the Lyceum in 1881. Bramham had thus some twenty years' start of the designers of Trafalgar Square, and had already influenced people in this little matter of pronunciation.

Thrown from his horse while hunting near London, Major Willey, of Hyth Hall, Workson, slighted on his head, but owing to his wearing a hard tail hat escaped with slight concussion. He is more than 70 years old.

AFTERNOON GOWN.

The beautiful carmine shade known as Nell Rose is the color and finely woven cashmere the material of this handsome gown. The black, showing on the front and as pipings on the neck and sleeves, is in heavy plush of the kind used by milliners.

Between the black bands in front is set a panel of gold lace over white satin, and gold threads, was used for the embroidered swirl around the neck and sleeves, which are edged by blue folds of gold-colored chiffon. The ornamental buttons are of the dress material.

Beautiful Novel Dress Materials All Very Specially Priced

Beauty of contour is the key of the success- ful "1913" costume.

More than ever before a proper corset is necessary. The great success of the D. & A. and the La Diva styles has kept the great Dominion Corset Co's model factory in Quebec, with its thousand skillful corsetières busy early and late producing the corsets which will bring style, comfort and support to many women in Canada.

Corset bargains

It is not only their style and comfort which make D. & A. and La Diva corsets popular. Compare them with any imported corsets of similar model.

The quality of the imported corset will be no better but the price will be \$1.00 to \$3.00 higher.

By actual count more than half of the best dressed women in Canada wear D. & A. or La Diva Corsets. There is a model for every figure. Our catalogue sent free on request, will help you choose the best for yours.

DOMINION CORSET CO.,
QUEBEC, P. Q.

Association at the Temperance hall, Cedar Hill, to-morrow night. The same subject will be discussed at that meeting.

Saturday's council meeting promises to be as productive of warm exchanges as marked the occurrence nine days ago, as the petitions are to be supported by delegations from the Ratepayers' Associations.

As applications have to be in before the next meeting of the municipal council for the position of mounted constable, it appears that at length a solution has been reached regarding the difference in the council over the appointment of police in the district.

A story of the etiquette of boat race practice is told in the "Liverpool Post." Unwritten tradition at Putney says that the two crews shall never row the same distance on the same tide, and, indeed, they are seldom out rowing together.

The coaches arrange the times for practice by mutual agreement—a simple method not always understood by outsiders.

It is just one hundred years since Mrs. Siddons took her farewell of the stage.

Free Treatment for Skin Sufferers!

All-Race Cuticura Soap and Outbreak Ointment are sold by druggists and mail order everywhere. All-race Cuticura is a skin cleanser, a powerful purifier, and a treatment of skin not hair will be seen, read, or on application to "Cuticura," 100-100, Boston, U.S.A.

Try the Other Man's Way to End Corns

When somebody says, "My way best ends corns"—
Try it and find out.
It may be a liquid, a salve or an old-fashioned plaster. There are 251 treatments—all way out-of-date.
Then, when it fails, try the scientific way. Apply a Blue-jay plaster.

Note how the pain stops instantly. Note how the whole corn, within 48 hours, loosens and comes out. No pain, no soreness, no inconvenience.
Since this invention, over 60,000,000 corns have been removed by Blue-jay.
Try both ways—the right and wrong, the old and new. Then, when somebody says "Try my way" next time, you'll know what to say.

A in the picture is the soft B & B wax. It loosens the corn. B stops the pain and keeps the wax from spreading. C wraps around the toe. It is narrowed to be comfortable. D is rubber adhesive to fasten the plaster on.

Blue-jay Corn Plasters

Sold by Druggists—15¢ and 25¢ per package
Sample Mailed Free. Also Blue-jay Bunion Plasters.

Mrs. and the Misses Mesher will be at home at 630 Dallas road, Wednesday, April 2, and will be pleased to receive all their friends prior to their leaving for Europe.

"SALADA"

A Tea possessing exquisite freshness and fullness of flavour not found in other Teas.

Pure and clean to a leaf.

IN SEALED LEAD PACKETS ONLY.

Black, Green and Mixed.

Frank Bowser, brother of the attorney-general, and a former reeve of Point Grey, arrived at the Empress hotel yesterday. He leaves to-day for the mainland again.

W. S. Macdonald, contractor for the new parliament buildings, left here on Saturday night for the mainland, en route to California, where he will spend a few weeks' vacation.

Reaching the coast on Saturday after a trip from Buffalo, N. Y., Albert Boden and Mrs. Boden came to the capital to spend a short visit. They are staying at the Ritz hotel.

W. A. Ward, a prominent Vancouver business man, was in the city yesterday. He is interested in the Douglas Lake Cattle Company, one of the largest ranches in the country, being owned by the company.

Mr. Daly, assistant to the ship's husband of the Canadian Pacific steamships, arrived in the city yesterday to meet the Montague. He will stay at the Empress hotel pending the release of the steamer from quarantine.

On Easter Monday a somewhat unusual event occurred at Skidegate, when Dr. Spencer officiated at a double wedding, the happy couples being Miss Charlotte Laughran and Mr. Edward Wiggins, and Miss Goodall and Mr. Antoine Crompt, all of whom are well known in the community. The newly-married couples, who were the recipients of a large number of presents, will make their future homes at Skidegate.

IDEAS OF A PLAIN MAN

By DR. FRANK CRANE.

"Better env, than pity"—"Mieux vaut envier que pitié"—is the proverb. Wee unto you when all men speak well of you! For that means, not that you are bad, but that you are nothing.

When we say a forceful, successful man is universally beloved, we are only using a figure of speech. No man nor woman who amounts to anything is universally loved.

Power, ability, creative and constructive genius produces hate among men just as certainly as a red-hot poker makes a sizzle when you thrust it into a tub of water.

Don't you dream of having no enemies! No one has such luck except one who is entirely negligible.

The very best, gentlest and most loving of men was crucified and reviled.

Victor Hugo, in the second ode, third book, cites a verse from Abou Hamid (I suspect the poet made the verse himself and that the Arabian author is imaginary). It follows:

"No one disturbs the dry and sterile trees; only those whose brows are crowned with yellow fruit."

RIBBON-TRIMMED CHALLIS. A challis in which red berries played an important part in the design, was made up simply as shown in this sketch and trimmed in an attractive way with red satin ribbon. Small black buttons decorate the front and a black enameled leather belt is worn.

THE EVENING CHIT-CHAT

By RUTH CAMERON

How much more attractive than the reality one can make anything sound by telling about it in a clever way! And how often people do that!

A former neighbor of ours is now living in a distant city. Since her departure from our midst she has regaled us with letters so full of the beautiful home in which she lives, and the wonderful friends she has made that we have all been quite green with envy. I say "have been" because that is all past. Recently another neighbor was visiting in the same city and since her return we have felt more satisfied with our humble lot.

Our former neighbor wrote us she was living in a beautiful, old-fashioned house with twelve rooms, three baths and a small conservatory. That was all true, but she quite forgot to mention that she only has part of the house, and that she pays for that part by caring for the old gentleman to whom the property belongs.

She conjured up visions of elegance by telling us that she lives on a certain street, which is almost world-famous as a centre of wealth and aristocracy. Of course she didn't explain that the street is very long and the part in which she lives is no more fashionable than our own neighborhood.

She wrote nonchalantly of attending a tea given by a famous authoress, and chatted about the lady in question in a manner that made us think they were old friends. The truth of the matter was that the tea was a public affair given for charity, and she has never met the authoress before or since.

And so with one light touch after another, without a single untruth, but with innumerable clever half-truths, she drew us a pretty halftone picture at which we gazed fascinated—just as she meant we should.

Now that the traveler has turned the harsh light of full truth on the pretty picture, and sketched in some of the less attractive lines, we are inclined to laugh at our old neighbor, and yet, are you and I never guilty? Don't we ever draw halftone pictures for our friends?

"Half the pleasure of my trip abroad came from thinking how I would describe my good times to my friends," said one of those rare people who try to be frank with themselves. "Even when I wasn't having such a very good time I'd think how delightful I could make it sound."

Few of us make such frank admissions even to ourselves, but if we did I fancy we should often have similar confessions to make.

LOOK!

"Saanich Line" Opens May 15

This news from the Colonist of Saturday is the first stroke of the knell of low values in desirable residential property along the line of the new suburban electric. You wouldn't waste a minute if you could only realize what a chance there is, right now, in "Burnside Carline Heights." Magnificent homesite lots, only 15 minutes by street car from the city hall, and the car service beginning a month and a half hence. Every lot a splendid high, dry residence lot, close to the carline and within a stone's throw of store, post office, church and school. Electric light will be supplied later by the Electric Company. The practical advantages of town life with the pleasure and economy and health of the country.

And just look at the prices and terms. These prices are positively 1912 values. Pay just like rent and live on your lot while you do it. Get a lot for as little as \$400, paying only \$50 down and \$15 a month. You can't beat it. Moreover, there isn't a safer, surer, better investment on the market than these lots. Present prices won't last long, so act right away if you act at all.

Motors at your convenience. Arrange for a view of this property right away. Remember, the lots are selling like hot cakes and prices will be raised on what are left very soon.

Why not to-day?

SATISFIED WITH "10 to 16"

GRAND ADMIRAL ALFRED VON TIRPITZ

Imperial Secretary for the German Navy, who attracted international attention with his recent announcement that as head of his department he would have no objections at all to raise against Winston Churchill's "ratio of ten to sixteen between the German Battle Fleet and the English Battle Fleet as acceptable for the next few years." The statement is enigmatical. Precisely what it means has been answered in many different ways.

ARIZONA HAS HUGE PETRIFIED FOREST

Was Declared a National Monument Under Provisions of the Lacey Act

For more than 20 years the people of Arizona endeavored to have the region of the famous petrified forests made a national park, but congress never took enough interest in the matter to pass the necessary legislation. Then for several years, the petrified forest was declared a national monument under the provisions of the Lacey Act, so that this agate-strewn desert is now protected from the heedless acts of vandalism.

The most convenient point from which to visit the petrified forest is Adamana, a way station on the Atchison, Topeka and Santa Fe railroad in Apache country. Within a radius of 16 miles of Adamana there are five extensive areas in which great numbers of petrified tree trunks have been exposed by the slow process of erosion. Beyond doubt similar petrifications exist in the rock strata that cover much of the intervening country, and will be uncovered ages hence by the action of the elements.

Resembles Sinbad's Valley.

There are millions of tons of chalcidony, jasper and agate, of every shade and color that the master painter ever mixed upon the palette of the universe. Some of the petrifications are enormous tree trunks, five or six feet diameter at the base, and more than 100 feet in length. None are entire, being broken into sections of varying

length by transverse conditions. Sometimes, when one of the larger trunks is broken open, it is found to be hollow, with the interior surface thickly encrusted with crystals of smoke topaz, purple amethyst or transparent quartz. All around are thousands of acres of the desert covered with chips and splinters of riven and shattered logs. Every chip is a gem, worthy of the lapidary's painstaking art. Here one may gather from the ground jasper and agate fragments of almost every color—purple, blue, orange, vermilion, crimson, mauve, garnet, violet, velvet black and snowy white. Unless one be careful in strolling over these piles of unpolished gems, his shoes will be cut into ribbons.

Devoid of Scenic Features.

The petrified forest is devoid of imposing scenic features, such as characterize the Grand Canyon of the Colorado river and many other famous wonderlands of the southwest, challenging the wonder and admiration of the most unthinking by their sublimity and grandeur. It must be studied in detail, rather than viewed as a whole, and the imagination must be summoned to enable one to picture what it has been as well as what it is. To appreciate the wonder of it one must conceive of these dead masses of rarest rock as upright monarchs of the forest, covered with foliage that swayed and murmured in the passing breeze. He must remember that the vast semi-desert that now stretches for 1,000 miles to the East and half as far to the West, then had no existence, for this was in the tropic springtime of a world that is now old, shrivelled, frost-bitten and decayed. The Rockies had not yet been reared, and the Grand Canyon had not been outlined, and what is now the "last stand of the desert" was one of earth's green garden spots with strange monstrous, reptilian forests slinking through the dark undergrowth.

Estimates made by geologists as to the length of time that has passed since the petrified forests were green vary from 3,000,000 to 15,000,000 years.—Medicine Hat Call.

Relief for Bowel Trouble

Here is a laxative—not a purgative—but a pleasant, easy-to-take tablet that tastes just like candy, that children like, that is ideal for invalids and aged persons. We guarantee it not to cost you a penny if it does not satisfy you. Don't doubt or hesitate—make us prove it.

Consult Your Doctor

We believe your doctor will tell you that about 95 per cent of all human ills are indirectly caused by unclean and constipated bowels. You know the first question the doctor asks when you consult him is, "Are your bowels regular?"

When your bowels are not naturally exercised such as they would be if you took a good brisk walk of six or seven miles a day out in the open, they require artificial exercise and a corrective tonic that will soothe and strengthen while regulating the bowels to natural action.

Free If It Fails

We have so much faith in Rexall Orderlies as the safest, most dependable, easiest-to-take, quietest acting and most thoroughly good remedy for bowel trouble, that we offer them with our positive guarantee that if they do not satisfy for any reason whatever, we will hand back the money you paid for them.

Don't doubt or hesitate. Make us prove our claims. Come and get a box of Rexall Orderlies today.

CAUTION: Please bear in mind that Rexall Orderlies are not sold by all drug stores. You can buy Rexall Orderlies only at the Rexall Stores.

You can buy Rexall Orderlies in this community only at our store:

D. E. CAMPBELL

Victoria The Rexall Store British Columbia

There is a Rexall Store in nearly every town and city in the United States, Canada and Great Britain. There is a different Rexall Remedy for nearly every ordinary human ailment especially designed for the particular ill for which it is recommended.

The Rexall Stores are America's Greatest Drug Stores

We won't ask you to sign anything or obligate you in any way. Your mere request will bring a return of your money. You take no risk whatever. With this guarantee there is certainly no reason why you should hesitate to try

Rexall Orderlies

Remember, we are doing business right here where you live. You are acquainted with us or you are possibly a friend or a neighbor. We would not dare to make such a statement were we not positive that Rexall Orderlies justify every claim we make for them.

If your tongue is coated, if your breath is bad, if your food does not digest easily, if you feel dizzy at times, if you are bilious, if you are irritable, if you suffer headache, just try Rexall Orderlies because the chances are that you are simply suffering constipation.

Rexall Orderlies come in convenient vest-pocket tin boxes. 12 tablets, 10¢; 36 tablets, 25¢; 80 tablets, 50¢.

THOUSANDS SEEKING THE HIGHER LEVELS

Water Still Rising in Ohio River With Heavy Damage in Every City

MUCH DAMAGE DONE TO BUILDINGS AND GOODS

Chicago, March 31.—Floods in the Ohio river from its mouth to Marietta, Ohio, due to the great volume of water poured into it during the last week by its tributaries, have caused thousands of people to leave the lowlands along the river and seek refuge on higher ground. Early to-day the water is still rising and at every city along the river heavy damage to property is reported. Railroad traffic has been impeded and many miles of track washed out.

In Illinois Governor Dunne has ordered 1500 state troops to proceed by special trains to Cairo and Shawneetown to patrol the levees.

Hundreds of laborers also have been ordered to pile sacks of sand on the levees in the hope of strengthening them and preventing a break.

Reports early to-day from Henderson, Owensboro, Louisville, Newport and Covington, Ky.; Evansville, Ind.; Cincinnati, Portsmouth, Marietta, Ohio; Huntington and Parkersburg, W. Va., show that stocks of goods in buildings near the river have suffered heavily and that the damage will run into the millions. There has been no loss of life at any of these points.

A telephone message from Cairo, Ills., early to-day, shows that the levees were still holding and that the water was in less danger than was believed last night. The water was still several feet below the top of the levees.

Cairo, Ills., March 31.—The stage of the Ohio river here at 8 o'clock this morning was 52.1 feet and the river still is rising. The levee is fifty-five feet high and as it is weighted down with sandbags for two feet additional, there seems no immediate danger. Several companies of Illinois National Guards arrived this morning.

STRONG CRITICISM OF BIRD PLUMAGE TRAFFIC

Lord Curzon Scores Vain Women in Speech Before Bird Protection Society

London, March 31.—A strong criticism of the traffic in bird plumage was contained in a speech by Lord Curzon at the annual meeting of the Royal Society for the Protection of Birds, held in Westminster Palace hotel, "We encourage, or at any rate, allow," he said, "our women, presumably to satisfy them or gratify ourselves, to decorate their heads with the plumage of the most beautiful and innocent things in the created world, and the whole world has to be ransacked and ravaged in order to gratify this nefarious and abominable taste (hear, hear). I say frankly I think it is an appalling traffic, and I am not aware of a good word to be said for it. It is a cruel and inhuman traffic, partly because of the suffering it gives to the wretched victims.

Lord Curzon said that in order to meet the demands of a fashion current when he was a boy the wings were hacked and torn off millions of living sea gulls, and the birds were left to die in that maimed and suffering condition. The traffic was cruel in another way, because by a deplorable irony the plumage most in request for human adornment was the plumage which could only be procured at the period of the nesting season, so that the slaughter of the parents was followed by the starvation of the young. Again, the trade was a wanton and wicked one because some of the most beautiful specimens of bird life in the world were gradually being exterminated.

Six bird sales were held in London in 1911, he continued, and at three of these sales 41,000 humming birds were sold, while in the same number of sales 20,700 birds of paradise were sold, as well as 123,000 egrets. Many varieties of these birds were either exterminated or were in process of extermination. Were they required for the health, comfort, or convenience of any man or woman? No; they were simply required to pandor to the vanity of women or to the idleness of men.

In this country there was no prohibition of the exhibition for sale of these beautiful objects. What could be the objection to restrictions, other than the interests of those engaged in the trade, he did not know. He could see no objection to the prohibition of the wearing by women of the plumage of birds of paradise and similar adornments. If it were necessary to seek the co-operation of foreign countries no one would be more ready to help them in that respect than so famous a lover of bird life as Sir Edward Grey. Why should not the great land-owners, asked Lord Curzon, have bird sanctuaries for their birds, instead of filling their coverts with wretched pheasants to be driven to the guns once or twice a year? He concluded with a tribute to the memory of Dr. E. A. Wilson, who perished with Capt. Scott in the Antarctic, as a naturalist of unusual ability who had done much to call attention to the need of protecting peninsulas, which were slaughtered wholesale for the sake of the oil in their bodies.

FINE BAND CONCERT CONCLUDES SERIES

Rowland's Band Pleases Large Audience With Varied Programme

The concert given last evening at the Victoria theatre was the last to be given there during the present season by Rowland's concert band, and a large crowd of the regular patrons of these entertainments was present to show its appreciation of the delightful Sunday evening performances which have been given during the past few months by this musical organization.

The programme was unusually good, commencing with the "War March of the Priests," from Mendelssohn's "Athalia," which were loudly applauded. Next followed the Grand International Fantasia and a selection from "The Chimes of Normandy." As usual Mr. Rowland conducted with great skill, and the instrumentalists played with that harmony and consonance which comes only after careful rehearsal of the various works. Mrs. William Grant, who has a pleasant mezzo-soprano voice, was much appreciated.

R. ROWLAND (Director.)

In her solo, "Beyond the Gates of Paradise" and "Sweet Home of Angels," while Prof. Jos. Philo's violin solo, De Berliet's "Andante Tranquillo," was also generously applauded.

A great measure of praise is due to Conductor Reginald G. Rowland, who in providing no less than seventeen concerts to Victoria audiences during the past few months has done much toward furnishing pleasant pastimes for numbers of people. Mr. Rowland, who came to this country three years ago from Carmarthen, South Wales, was for some time stationed at Regina, Sask., where for two years he was conductor of the Regina City band, leaving that city soon after the cyclone, and coming to Victoria, where he organized a band last October. In addition to the Sunday evening concerts at the Victoria theatre, part of Mr. Rowland's band has played throughout the winter at the skating arena, where the music has been much appreciated. The following is the personnel of this excellent orchestra: Flute and piccolo, H. Searle; clarinets, T. Pilgrim, G. King, T. Bonnetta, H. Pike, S. Peel, W. Eastman, G. Hendricks; cornets, W. North, D. Rife, J. Fulton and W. Davidson; horns, W. Fairall, S. Kelly and W. Tiley; trombones, G. Falger, J. Miller; euphonium, P. Monte; basses, J. Hunt, R. Graham, T. White; drums, G. Keown, W. Wilson; tympani and bells, E. Ankersen; piano, C. Balagno, and director and manager, R. Rowland.

PARISIAN SAGE

Imitations of This Great Hair Invigorator are Abroad in the Land. Look for the Girl with the Auburn Hair on Every Package.

PARISIAN SAGE—ask for it by name when you want the real hair grower and dandruff cure.

This is a picture of the carton in which each bottle of PARISIAN SAGE is packed. PARISIAN SAGE will banish dandruff, stop falling hair and itching scalp, and promote a new growth of hair if the hair root is not dead. It is a clean tonic and contains no poisonous lead or other dangerous substance. It will put radiant beauty into dull, faded, lifeless hair, and as a definty hair dressing for women it cannot be matched.

Get a 50-cent bottle of PARISIAN SAGE to-day. If it doesn't give complete satisfaction, your money will be returned. Sold by D. E. Campbell and dealers everywhere.

DEATH OF J. PIERPONT MORGAN TOOK PLACE TO-DAY AT ROME

(Continued from page 1.)

a man rough, emphatic and repellent, inaccessible as the Emperor of Russia, when he chose to be known as the worst man in the world to interview, and as a man who believed absolutely in himself and apparently never questioned the correctness of his methods.

His friends, however, knew him as a simple, unaffected companion, an interesting conversationalist with keen wit and genial humor.

Once a woman asked him why he kept on accumulating money when he already had more than he needed. "I don't love money," Mr. Morgan is said to have replied, "but I do enjoy the excitement, the fun of making it."

Business was not all to the life of J. P. Morgan. His office hours were short, and at the close of his business day he left his office and his business behind him. Woe to the person who then approached him on business bent. He cared little for society, but was fond of a good dinner in congenial society, of rare wines and big black cigars. Wines he partook of with moderation. To cigars he was almost a slave.

He graduated from the English high school in Boston, was a student of the University of Göttingen, LL. D. Yale University, 1908; Harvard University, 1910. He married Amelia Sturges, in 1861, who died in 1862. He was married again in 1865 to Francis Louise Tracey. He has one son, 3 daughters, and 11 grandchildren. He is the father of John P. Morgan, Jr. He entered the bank of Duncan, Sherman & Co. in 1857, afterwards becoming agent and attorney of United States in 1859 for George Peabody & Co., who were bankers in London, his father being a partner and member of the Morgan, Dabney & Co. Investment Securities, 1864 until 1871. He then became a member of the Drexel-Morgan firm & Co., London. Largely occupied as financier in the largest re-organizations of railways and consolidation of industrial properties, floated United States bonds issue of \$2,000,000 during the Cleveland administration; organized and floated securities of the United States corporation in 1901 (capital \$1,100,000,000); secured American subscription of \$50,000,000 to the British war loan of April, 1901; organized the existing agreement of anthracite operators of Pennsylvania, also of the soft coal interests in Ohio, Indiana, and Pennsylvania, which controls over 50,000 miles of railways; large American and British ocean transportation lines. He gave sites and buildings and funds amounting to \$1,500,000 to the Lying-in hospital, New York, and large donations to the New York trade schools, the Cathedral of St. John the Divine, and many other institutions. He made valuable gifts to the American Museum of Natural History, the Metropolitan Museum of Art, and the New York Public Library. He owned a famous collection of pictures, including the famous Gainsborough painting; books, manuscripts, curios, etc. He was also a yachtsman and was commodore of the New York Yacht Club. He built the "Columbia" which defeated the "Shamrock" for the America's Cup in 1899 and 1901.

Mr. Morgan was president of the Metropolitan Museum of Art and was a member of many societies and clubs in the United States and abroad. He held the Grand Cross of the Order of the Red Eagle, Germany, which was bestowed on him in 1911.

Mr. Morgan started his business career half a century ago on the board of directors of a large maritime insurance company. He secured the position through the influence of his wealthy father. For a year young Morgan attended the directors' meetings, but never opened his mouth except to vote. The president of the company told the older Morgan that nothing could be done with his son, who seemed to take little interest in business. John Pierpont all the time was laying plans for his first railroad construction which, when accomplished, established his standing in Wall street, as the only man who ever got the better of Jay Gould.

The sobriquet of "Sphinx of Wall Street" later was the appellation applied to the man who at first was believed to have been, without business acumen, but later became the supreme head of American finance.

Morgan's control over men and money was the dominant keynote of his life. Others, perhaps, were wealthier than Morgan, but he commanded his wealth and that of others. At a height of a little child upon her self-centred bachelor guardian, and the happy transformation she effects in his character, broadening his sympathies, softening his heart and breaking down his selfishness, is a pretty theme, and in its working-out many humorous situations present themselves.

The cast supporting Henry Buckler, who plays the chief part, includes Vera Townsend, Lena Lorraine, Stella Wilson, Louis Shea, George B. Hubbard and many others.

DEAD INDIAN IDENTIFIED

Jack Tschow Was Name of Man Who Was Killed in Waterfront Fire.

The body of the Indian who was incinerated in the ruins of a shack off the old Indian Reserve on Saturday morning has been identified as that of Jack Tschow, who was about 50 years of age. He was one of the band who received \$10,000 each at the time of the removal of the band from the Songhees Reserve to Esquimalt.

The inquest will be held to-morrow into the circumstances of the death of the unfortunate man, of whom little was known beyond the above meagre details.

You'll probably never wholly escape the troubles—but with foresight about inner tubes, the right sort of repair kits, and even a beggarly portion of luck, you'll not have to incur big expense.

THE REASONS FOR THE SUCCESS of this great sale are many. Quality, then price, has always been our hobby. For this reason a few dollars reduction on a garment means more to you here than double the amount at many other stores. **ABSOLUTELY SQUARE TREATMENT**, the advertising of plain facts, backed by good clean up-to-now this season's merchandise at unheard-of prices are strong factors. **AS A RULE** sales are only made in order to clear out a lot of plunder or shelf-worn goods which the good people are humbugged into buying. **EVERY CITIZEN OF VICTORIA KNOWS THE HIGH CLASS LINES OF MEN'S WEAR AND CLOTHING CARRIED BY THIS STORE. DELAY MEANS YOUR LOSS. COME TUESDAY—COME WEDNESDAY. DON'T MISS A DAY.**

SHIRTS

About 25 dozen in the lot. All sizes, but broken lines, which mean our best selling styles. Former price \$1.50, \$1.75 and some \$2.00.

**CHOICE
95c**

NOW THEN

Possibly you've been waiting on this chance. Thirty-nine Suits in the lot, including Hobberlin and equally as well known makes. All sizes, but only one of a kind. Why go to your tailor and pay \$40 for same values?

**CHOICE
\$18.40**

MEN'S SUITS

Only 44 in this lot. All sizes, but only one and two of a kind. Every one an art of workmanship; 1913 styles. Values from \$18 to \$22. Some up to \$25.

**CHOICE
\$12.40**

TROUSERS

Only 137 pairs in this lot left. Any size, but broken lines. They carry style and service combined. Values up to \$4.50. While they last

**CHOICE

"THE BACHELOR'S BABY."

"The Bachelor's Baby," Francis Wilson's three-act comedy, to be presented at the Victoria Theatre on Wednesday, April 2, is as strong in sentiment as it is in humor. The engaging influence of a little child upon her self-centred bachelor guardian, and the happy transformation she effects in his character, broadening his sympathies, softening his heart and breaking down his selfishness, is a pretty theme, and in its working-out many humorous situations present themselves.

The cast supporting Henry Buckler, who plays the chief part, includes Vera Townsend, Lena Lorraine, Stella Wilson, Louis Shea, George B. Hubbard and many others.

AUSTRALIANS COMING.

Montreal, March 31.—Word was received in Montreal Saturday that the Australian cricket team which is to tour American during the coming summer will play a two-days' match in this city on July 13 and 14.

CUTLER A WRESTLER.

Montreal, March 31.—Another wrestling champion in embryo will show his paces in Montreal Saturday that the great series of contests to find an opponent for Gutch, now being run here by George Kennedy. This is Chas. Cutler, who on Wednesday evening wrestles with Cazaux, the fiery Frenchman. In the match this week Constant Le Marin defeated the black giant, Mora Vincent, from Cuba, in straight falls, and it begins to look as if Le Marin is to be the man to meet Gutch for the big purse.

TO BE AMBASSADOR.

Washington, D. C., March 31.—Walter H. Page, of Garden City, L. I., editor of the "World's Work," and a member of Doubleday, Page & Company, publishers, has accepted President Wilson's offer to be ambassador to Great Britain.

W. H. HAYWOOD SENTENCED.

Paterson, N. J., March 31.—William D. Haywood, organizer of the I. W. W. organization, was sentenced to six months in the county jail this afternoon on conviction of causing unlawful assembly. He came here in connection with the silk mill workers' strike.

It Fits Lovely

That's the remark passed by those who have their suits made here. The spring suitings represent the finest stock we've ever had, and they're all imported, too.

What a Monk wrote about Chocolate in 1664

Here is the translation of a verse from an "Ode to the Chocolate Tree," written in 1664 by Alonsius Ferronius, a Jesuit:

"O tree, upraised in far off Mexico,
The glory of their golden strands;
As heavenly nectar from a chalice, flows
Its Chocolate for other lands."

Today Ferronius would find, in Lowney's, rarer cocoa-flavor than any ever tasted in his time. For Lowney's is the finest flavored cocoa of any time.

It is a skillful blend of the choicest flavored cocoa beans of several countries. These beans are so roasted that they give off an aroma found only in Lowney's Cocoa.

Try a tin.

Enjoy a treat that Ferronius missed.

Sold by grocers. In tins—10c to 50c sizes.

HAS HAD EXPERIENCE IN PUBLIC MARKETS

Former Toronto Resident Tells
of Happenings in the
Eastern City

Relative to the proposal to introduce public markets into Victoria the Times has procured an interesting interview with a former Toronto man living in the city.

"Toronto has had some rich experience with public markets," said this man. "The public cattle market started there was a huge success up to a certain point. At this stage the meat trust decided that things could be done better at a privately-owned market, and in a single day it put the city market out of business. A public market is a fine thing—just so long as the trusts let it be—and not a day longer."

"Toronto is now constructing a civic abattoir to kill the cattle shipped into the city market. The city hopes thus to recoup the market. But if the trust decided to pay a better price for meat than the city abattoir buyers, the cattle will continue to go to the Swift market. The city may succeed but it looks black."

"The city cattle market was begun many years ago in close proximity to the plant of the Harris abattoir, the biggest beef-killing place in the city. Harris were always the biggest buyers at the market and their influence dominated the market completely. The Union Stock Yards is a more recent innovation by the Swift interests."

"Not long ago Harris were given a site for an abattoir adjoining Swift's yards and they announced that they would henceforth do all their buying at the Union Stock Yards. About two weeks later the Union Stock Yards, which had been holding its markets on different days from the city market days, switched over to the same days and conflicted directly. Since then there have not been three loads of cattle a day sold at the municipal market and the price of beef has been steadily mounting under the influence of the Swift-Harris combine."

"That they are prepared to fight the city abattoir by any means, even by the last resort of trusts, price-cutting, was revealed by an alderman who created a sensation a few weeks ago by declaring in council that he had been offered money to block the civic abattoir scheme. He declared other aldermen were implicated and the matter is under investigation."

FERNWOOD VOTERS' LIST

Arrangements have been made for the registration of voters in the Fernwood suburb of the city by opening an office in the Parfitt Block at the corner of Gladstone avenue and Fernwood road. A notary will be in attendance in the office of Parfitt Bros. each evening from 7:50 and those who wish to secure their right to the exercise of the franchise are requested to register early as this is the last week of registration.

PAYS FIRST VISIT

New General Manager of Bank of
Vancouver Inspects Local
Offices.

C. G. Pennock, the new general manager of the Bank of Vancouver, paid his first official visit to the branches in this city on Saturday, returning to Vancouver the same evening. He made an extended tour of the Dominion and Europe before taking up his present position.

Discussing the financial situation with the Times at the Empress Hotel he said that while money has been tight as the result of the war in the near East, there is every indication that much better conditions will prevail in the approaching summer. There is good faith shown in British Columbia investments by the Old Country capitalists; but on account of the general stringency there is naturally no great outflow of capital.

Before accepting his present position Mr. Pennock was the general manager in British Columbia for the Bank of Ottawa, and his appointment in succession to L. W. Shafford has proved very popular with other banking interests.

CONCERT A SUCCESS.

Under the auspices of Victoria Lodge No. 84, I. O. G. T., a concert was held last Friday evening in St. Barnabas' schoolroom, the hall being taxed to its full seating capacity. Rev. Wm. Stevenson took the chair, and in his short opening address touched on the social as well as the serious side of Good Templary. The concert which followed was opened with a song by Mrs. Wood, other vocalists assisting being the Misses Palmer, Messrs. Moir, Hardy, Lauch, Dunn and Menzies and Rodgers. Miss M. Dick gave a mandolin selection, and Mr. Griffiths, Donnan a pianoforte number. Mrs. D. A. H. Hutchison made an able accompanist. Refreshments were served during the intermission in the programme, "Auld Lang Syne," concluding the programme.

You Could Cook Any One to come to the Kaiserhof for one of those German meals. At the Kaiserhof they have learned to prepare meals from the very masters of the art. You can get short orders or a regular meal at any time.

A steamship line has offered to carry free to England the first 25,000 tons of cotton grown in South Africa.

1115 Douglas, Opposite Victoria Theatre.

DIAMOND CUT DIAMOND.

It falls now and then to a law officer to attend a meeting of the British cabinet in order to keep members right on points of law, and a story is told about a remarkable conflict of wit across the table between Mr. Gladstone and an attorney-general of the day who had been called in. The attorney-general was Sir Richard Bethell, who was never a very manageable man and was proving a thorn in the side of Mr. Gladstone, then chancellor of the exchequer, with some big schemes on hand.

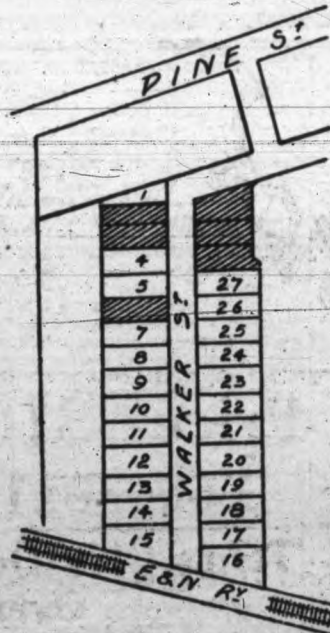

Mr. Gladstone was determined to take a certain course, and Sir Richard Bethell was equally determined against it. He told the cabinet that it would be contrary to the law, and, by way of supporting himself, produced a bulky and forbidding book of law, from which he read at great length.

Mr. Gladstone asked to be allowed to see the volume, and, turning over the leaves, began to read another passage, which qualified away the one the attorney-general had read and set matters right from Mr. Gladstone's point of view.

Coming away from the meeting, a member of the cabinet asked Mr. Gladstone how he came to know that such a passage as the one he had read was in the book. "It was not," said Mr. Gladstone, "and neither was the passage which Bethell read."

Cigarette consumption in the United States means in round numbers, 85 cigarettes for every man, woman and child in the country.

Industries Will Need This Property

Everyone knows that early buying in sections that will be sought by industrial enterprises is first class investment. A glance at the accompanying map will show you the great opportunity offered in the immediate sale of the 24 lots on Walker street, Victoria West. The establishment of railroad yards on the Reserve and the building of the new bridge which will greatly reduce the distance from the centre of town, will make this section hum.

We have instructions to sell these lots at once at prices and terms that are exceptionally low and easy. Walker street has been graded and is ready for paving, which is to begin shortly. Water and sewers have been installed.

This property is only a quarter-mile from the heart of the Victoria West business district.

MARKING TIME IS GROWING IRKSOME

Financial Situation Shows Some Hope of Improvement

CLERICAL STAFF AND SCALE OF SALARIES

Report Will Be in on Bay Street Extension of Car Lines

The city council will have a quiet meeting this evening, as it is probable very little controversial matter will be introduced. The estimates by-law may be ready, but it is doubtful if the council will be in a position to deal with it, as a final revision is being made of the estimates.

Some statement with regard to financial matters is eagerly awaited by the aldermen, so that this policy of marking time may not be continued indefinitely. The comptroller has been in close touch with the Dominion Securities, Limited, and the financial men in Toronto with a view to an early marketing of the large issue which the city contemplates putting on the market. Certain remarks which were made with regard to the city's financial standing and the prospects for the future during the two majority campaigns have not commended themselves to the financial interests, and they have taken the occasion to give the comptroller the hint to endeavor to restrain these outbursts of oratory by council members so far as he is able.

There is a good deal of dissatisfaction among the officials at the city hall in the cutting down of staff and the refusal to give increases this year when the estimates were considered, and there is also the feeling that men are not graded equally. The reason for this feeling lies in the fact that in some departments men are receiving \$15 a month for work equally important as that for which others receive \$30. The head of the financial affairs of the city is receiving less than half a dozen other officials of the municipality. These anomalies have been drawn to the attention of the aldermen from year to year, and although some attempt has been made to obtain redress, the system has been allowed to drift along in a haphazard fashion.

A report will be presented on the Bay street car line, the route of which was inspected on Saturday. Bay street is one of the main thoroughfares which would have been paved before, but for financial developments, and as there is a large amount of rock to come off the street, the British Columbia Electric railway desires the work done in connection with the local improvement work contemplated. The effect of construction on Quadra street will inevitably be to release the paving company from its five-year guarantee, as any breaking of the asphalt surface is regarded as a peril to the wearing capacity of the pavement. Quadra street has become the principal thoroughfare out to Saanich since the absence of street cars made it tempting to the motorist, particularly as the street is paved to the city limits. The Saanich council having cut down the steep hill just beyond the boundary, it has become a favorite route north.

QUICKLY CURES THE WORST BACKACHE

Makes Kidney Troubles, Bladder Disorders, and Rheumatic Pains Vanish

It is no longer necessary for any one to suffer with backaching kidney trouble, have disagreeable bladder and urinary disorders to contend with, or be tortured with rheumatism, stiff joints, and the heart-wrenching pains, for the new discovery, Croxone, quickly and surely relieves all such troubles. Croxone is the most wonderful remedy yet devised for ridding the system of uric acid and driving out all the poisonous impurities which cause such troubles. It is entirely different from all other remedies. It is not like anything else ever used for the purpose. It acts on the principle of cleaning out the poisons and removing the cause.

It soaks right in through the walls, membranes and linings, like water in a sponge, neutralizes, dissolves and makes the kidneys sift out and filter away all the uric acid and poisons from the blood, and leaves the kidneys and urinary organs clean, strong, healthy and well.

It matters not how long you have suffered, how old you are, or what you have used, the very principle of Croxone is such, that it is practically impossible to take it into the human system without results. There is nothing else on earth like it. It starts to work the minute you take it and relieves you the first time you use it.

If you suffer with pains in your back and sides, or have any signs of kidney, bladder troubles, or rheumatism, such as puffy swellings under the eyes or in the feet and ankles, if you are nervous, tired, and run down, or bothered with urinary disorders, Croxone will quickly relieve you of your misery. You can secure an original package of Croxone at trifling cost from any first-class druggist. All druggists are authorized to personally return the purchase price if it fails in a single case.

TRANSFER EFFECTIVE FROM END OF MONTH

Garbage Collection Service Goes to City Engineer—Street Cleaning

To-morrow is the date set for the transfer of the city garbage collection service from the control of the health department to that of the streets department. The change will bring under City Engineer Rust practically all the outside works of the municipal government.

It is being made with reluctance on the part of the sanitary department. While the health officials agree that street cleaning as well as garbage collection should be done under one head, they consider that they have so managed the latter that it should not be taken away from them.

The expenditure on this department will be about \$125,000 this year, according to the estimates as revised. The city engineer has refused to be responsible for keeping the streets clean unless the council gives him an appropriation of \$100,000, which is ten per cent. less than the actual expenditure in 1912. The balance is the amount for garbage collection which has been cut from the original estimate of \$107,000 to \$8,000. The difference has been arrived at by cutting out the vote for a second receiving station, and other minor items which may be deleted in a year of curtailment of expenditures in every department.

With the transfer will go the clerical control, and one or two assistants of the sanitary inspector will be transferred to the engineer's department for this class of work. The incinerators at Herald street will also pass into the hands of the works department. As Mr. Rust received control of the parks department last summer, all the construction work of the city is now under one head. The can collecting system has been extended almost throughout the city, though there are a few places where it has not yet become operative.

INDIAN COMMISSION

Will Visit Every Reserve of Importance in the Province.

J. P. Shaw, member for Kamloops in the provincial house, arrived at the Empress hotel last evening, and leaves for the interior again to-night. Speaking to the Times regarding the probable itinerary of the Indian Rights Commission, of which he has been named as a member, Mr. Shaw states that so far the government has not outlined the scope of the commission's investigations.

"I believe, however," the commissioner said, "that we shall visit every Indian reserve in the province and make an exhaustive study of the problems peculiar to each. Of course this will involve a large amount of work as there are reserves scattered all over the province, and in the North particularly, the Indian question is a very important one." Asked what effect the brief period allowed for registration has had on the voters' lists, Mr. Shaw said: "If anything there have been a much greater number of names put on the rolls this year than ever before. Usually, when a man has been able to get on the lists at any time during a period of months people have procrastinated, and when the lists closed they found they were not on. The need for haste in the present instance, however, has resulted in everyone making it a point to be put on. Only recently the two parties in the Kamloops districts made systematic canvasses of the whole district, and I believe that between them they rounded up every eligible voter in the riding."

PROTEST NAME CHANGE

Fort George Residents Up in Arms Against Grand Trunk Pacific.

The residents of Fort George are up in arms against the proposed change in name of that famous section of the upper country.

The government has been inundated with letters of protest from all the district affected, in which it is pointed out that the Grand Trunk Pacific is trying to reap benefit by destroying as far as possible the identity of the district in naming the new townsite, which it has submitted to the provincial government for approval. The government has a quarter interest in the townsite already planned and sold there and it is to the interest of the latter as much as the former to preserve the name which has been so widely advertised during the past three years.

The railway company replies that the townsite is being put upon the market by a subsidiary company, and not by the railway itself. Property owners in Fort George claim that this is merely begging the question, to put such a defence.

TEACHERS' VISIT TO OLD COUNTRY RESORTS

Support Will Probably Be Given Locally to Movement; Outline of Trip

The full details for the fourth annual visit of the teachers from Canada and Newfoundland to the Old Country have been issued. Miss Henry, of the High school staff, who took part in this trip last year, and afterwards went on to the Mediterranean and Egypt, was exceptionally pleased with her trip, and it is possible other teachers from Victoria will take part in the visit this time, although Superintendent of Schools E. B. Paul stated this morning that he had as yet no assurance of the support which was to be accorded the movement locally.

The secretary for British Columbia is David Wilson, of the education department, who thinks there will be several British Columbia teachers avail themselves of this opportunity to enjoy a pleasant and profitable vacation. This organization goes by the pretty name of the "Hands Across the Sea" movement.

The party will sail from Montreal at daybreak on Thursday, July 2, by the Allan line R. M. S. Gramplan, which has been specially chartered for this voyage. The entire first and second-class accommodation will be thrown into one, so that members will have the privilege of access to all parts of the ship. The directors of the Allan line have gone to much trouble in connection with this sailing, and have promised to do everything possible to make the voyage in every way a success.

The itinerary will include a visit to Oxford, with its colleges, a coach tour in South Buckinghamshire, three weeks in London and the southern counties, four days in Paris or the Channel Islands, trips to Bath or Birmingham, North Wales, Ireland, Edinburgh and Carlisle and the English Lake district.

PAPE'S DIAPEPSIN

REGULATES STOMACH

Time It! In Five Minutes Gas, Sourness and Indigestion is G

Do some foods you eat hit back—taste good, but work badly; ferment into stubborn lumps and cause a sick, sour, gassy stomach? Now, Mr. or Mrs. Dyspeptic get this down: Pape's Diapepsin digests everything, leaving nothing to sour and upset you. There never was anything so safely quick, so certainly effective. No difference how badly your stomach is disordered you will get happy relief in five minutes, but what pleases you most is that it strengthens and regulates your stomach so you can eat your favorite foods without fear.

Most remedies give you relief sometimes—they are slow, but not sure. Diapepsin is quick, positive and puts your stomach in a healthy condition so the misery won't come back.

You feel different as soon as Diapepsin comes in contact with the stomach—distress just vanishes—your stomach gets sweet, no gases, no belching, no eruptions of undigested food, your head clears and you feel fine.

Go now, make the best investment you ever made by getting a large fifty-cent case of Pape's Diapepsin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or any stomach disorder.

Many Buying in New Townsite

The sale of lots in Port Edward Townsite, Prince Rupert's Industrial Annex, which began here on March 27, is proving wonderfully successful. Inquiries are coming to the joint agents' offices here from all parts of Canada and many Victorians are buying in the new northern townsite. Negotiations are under way now with several large industrial enterprises besides those already assured. Development work is going on now. Port Edward offers the same opportunity to-day that Prince Rupert offered in 1909, and fortunes were made by early Prince Rupert investors. Excellent views are being shown at our offices now. Complete descriptive literature is supplied on request.

Port Edward, B.C. Prince Rupert's Industrial Annex

You know Prince Rupert; the whole world knows Prince Rupert. This port, the Pacific terminus of the great Grand Trunk Pacific Railway, grew from nothing almost over night, and developed with wonderful rapidity because it HAD TO BE. One of the greatest railroads in the world had WILLED it. Many who saw the opportunity made fortunes in Prince Rupert by investing there AT THE BEGINNING, before prices soared. It costs money to buy inside lots at Prince Rupert now. But you have practically the same splendid opportunity in Port Edward.

PRINCE RUPERT NEEDS PORT EDWARD

Prince Rupert NEEDS Port Edward. Prince Rupert WITH PORT EDWARD offers the greatest facilities for the Pacific Coast shipping and industry of all the ports on the entire Coastline. But, without Port Edward, Prince Rupert's capacity is cut down from the industrial standpoint because its waterfront is already utilized, or leased, to a great extent, and, with development merely beginning, intending users of industrial waterfront space will naturally turn to Port Edward to supply their needs.

INDUSTRIES ALREADY ASSURED

The Prince Rupert Hydro-Electric Company, Ltd., a powerful corporation, backed by the same capitalists who are behind the Western Canada Power Co., of Vancouver, has selected Port Edward for the site of its big power plant, and is already installing. Other large industries are assured, and among recent applications for locations were those of a cold storage plant, a large stone company and a shoe factory. The opening for industry at this great portal of the North Pacific is marvellous, and far-sighted manufacturers are already taking advantage of it.

THE MEN BEHIND PORT EDWARD

The Port Edward Townsite Company, Ltd., is made up of a number of prominent professional and business men, largely Canadians. It has the support of the Grand Trunk Pacific Railway Company, which has entered into a contract to provide complete transportation service. Port Edward is situated near Prince Rupert, on the Mainland and on the main line of the G. T. P. That railroad has already selected the site for its station, sidings, etc.

ARTHUR HAWKES TO THE PREMIER

INQUIRES ABOUT HIS PERMANENT POLICY

Thinks the People Should Be Informed on This Important Question

Mr. Arthur Hawkes, editor of the Canadian and British News, who took a prominent stand with the Borden forces at the time of the reciprocity campaign, has addressed the following letter to the Premier:

March 5, 1913.
Hon. R. L. Borden, Ottawa, Ont.
Dear Mr. Borden,—I am sure you will not be sorry to have an inquiry regarding Canadian defence from one who worked in the last general election without reference to what may have been said as to submitting any aspect of that question to popular vote.

In joining those memorialists who desired to remove the whole matter from the dangers of partisan politics I hoped it would be understood that whatever might be determined as to an emergent contribution the only solution of the question from the point of view of Canadian nationality as an increasing power within the British Empire (which was the whole inspiration of any aid I was able to render you in 1911) is worthy to implement the resolution of the House of Commons of 1909, which I have always believed to be the charter of Canada's naval development; a final reversal of which would be a declaration to the Empire and the world that a course taken by Parliament in a vital matter of national evolution need not be regarded as conclusive evidence that Canada is bigger than the partisanship which too often bedevils her politics.

Guidance Asked For.
As an elector who desires only to render service as he may to Canada, will you allow me to ask for guidance on a point which, though it does not appear to have been thrown into strong relief in the parliamentary discussions, may govern one's attitude in the epochal controversy which seems likely soon to emerge from the clouds at Ottawa.

I have always regarded the question of an emergent contribution as incidental, with this contingent responsibility attaching to it that the greater the emergency the greater the necessity for declaring once and for all, whether we will meet recurring emergencies in the same way as we propose to effect the first, and so reverse the position set forth so clearly in 1909, or whether we recognize such a permanent change in the situation of the United Kingdom and such a growth of Canadian nationality in relation thereto, as to make it imperative that we immediately develop a Canadian navy, as Australia is doing, as the most effective form of Imperial co-operation it is possible to undertake.

Fight on in Earnest.
If the Imperial situation is what you believe it to be, nothing seems clearer than that, psychologically, the fight is on, as truly as it would be if you were on the quarter-deck of a Dreadnought with the smoke of a hostile fleet thickening on the horizon. That involves, as it seems to one whose devotion to British interests will, I think, scarcely be questioned, and whose desire to see

GREY HAIR Restored to Youthful Color

Why have grey or faded hair that makes you look old—Why lose your good looks that youthful, natural color, hair color helps you to keep?—There is absolutely no need for it. A few applications of

Hay's Hair Health

will restore your grey hairs to their natural color and beauty, almost immediately. Your money back if it doesn't. Get a bottle to-day—prove it to your own satisfaction. Always ask for HAY'S HAIR HEALTH. Don't take chances with other preparations. FREE: Sign this ad., and take it to any of the following drug-gists, and get a 50c size bottle of HAY'S HAIR HEALTH and 1 cake of HAY'S FINE SOAP FREE, for 50c; or \$1 size bottle of HAY'S HAIR HEALTH and 2 cakes of HAY'S FINE SOAP FREE, for \$1. D. E. Campbell, Bowes & Co., Fraser & Co., Hall & Co.

your government succeed has been rooted in a certain recognizable responsibility for its advent to power, a speedy declaration as to whether the government does or does not stand by the principle of a Canadian navy as a permanent policy in sympathy with the memorial to which I have alluded.

What is Permanent Policy?
In view of all the facts, therefore, I venture to ask whether we may learn at once what the basic principle of its permanent policy is to be. Belief in a serious emergency or need, as illustrated by the concentration of British ships in the North Sea, seems to me to necessitate an unmistakable declaration on this point. If traditional British statesmanship, in face of crisis, is to be vindicated.

I am well aware, of course, that it has been stated that the country must wait for guidance as to your permanent policy till, in the ordinary course, the next general election impends. May I beg you to say whether it is to be understood that the position of the government is that it has no definite guidance to give to the country in the meantime?

Yours very sincerely,
(Signed) ARTHUR HAWKES.
Men and Women, You Now Have a Chance of Regaining Your Health Since the Importation of

VIGOROL

THE GREAT FRENCH TONIC Into Victoria by Mr. Campbell, the Leading Druggist

Weak and run-down, tired and full of pains. Do you know you can feel better in a few days if you are only wise enough to take VIGOROL, the Great French Tonic. Your pains and aches will go. If you are run-down, no ambition, tired and lazy, VIGOROL will make you strong. VIGOROL builds up the nerves, purifies the blood, removes rheumatism, cleanses the whole system, drives out everything that pertains to disease. Disease cannot live where VIGOROL is. Why suffer? Surely your life is worth a few dollars. Well then, you can buy VIGOROL for one dollar a bottle, or six for five dollars, at Campbell's Drug Store.

COAL DEPOSITS IN BORNEO.
Coal Bearing Series Found in East Indies—Good Workable Seams.

Some useful information regarding the newly-discovered coal in the Federated Malay States, and in British North Borneo, is given in the last Bulletin of the Imperial Institute, in the course of an article on the coal resources of the crown colonies. Referring to the important discovery of coal made on the southern boundary of the Rantau forest reserve, south of the Selangor river, in the former country, the Bulletin states that the coal-bearing series, consisting of shales and sandstones, rest unconformably on a foundation of quartzite and slates, which also form the surrounding hills. The beds appear to be later than the Cretaceous granites and are probably of Tertiary age. This is confirmed by the evidence of the plant remains, which have been identified with types now living in the Federated Malay States. The coal is largely composed of a redcliff plant not sufficiently preserved for determination. There appear to be two seams, though up to the present they have not been met with in the same bore. The larger and upper seam is more than 24 feet, and possibly 50 feet, in thickness. The coal extends for more than half a mile along the strike, and may be found at still greater distances. It is black, lustrous, does not soil the fingers, has a distinct conchoidal fracture, and burns with a long, smoky flame. From the analysis given it would seem that the coal has a high percentage of water and volatile matter, and a low percentage of fixed carbon and ash. The amount of water has a marked effect in diminishing the calorific value and evaporative power.

TROUBLE IN HUNAN.

Trouble is reported to be threatening among the disbanded troops in Hunan, Central China, who have made Changsha the base of their activity. The leaders of the would-be rebels declare that they are convinced of the unfitness of a Republican polity for the Chinese people, and that accordingly they aim at the achievement of a second revolution in order to restore the Imperial regime. Despatches from several other districts in the vicinity of Changsha also confirm the report. Vice-President Li Yuan-hung has instructed the magistrate of Hunan to look into the matter.

The Middle Ages were capable of beautiful enthusiasm, and no time in history has produced more entirely splendid characters.

BIRTHDAY CALENDAR

IF THIS IS YOUR BIRTHDAY
Be careful of fire or dishonest persons and of risks. In general you will be fortunate and some journey or change will result successfully.
Those born to-day will be great travellers and will meet with good fortune in foreign lands. They will be well-liked by many and will have the power to influence the conduct of those with whom they come in contact.

TO-DAY IN CANADIAN HISTORY

McGill University, in Montreal, perpetuates the name of a wealthy Scottish fur-trader and merchant of that city, who died in 1813, and left to "four trustees a parcel of land for a site for a university or college," with a competent number of professors and teachers to render such establishment effectual and beneficial for the purposes intended. In addition he bequeathed for the same object a sum of \$10,000. It was directed that "both the land and the money were to be conveyed by the trustees to the Royal Institute for the Advancement of Learning, but if the university or college were not established within ten years the bequests were to be reclaimed from that institution and otherwise applied." The carrying out of the conditions proved to be difficult, and finally the "Royal Institute" applied for and obtained a royal charter, dated March 21, 1827, for the better establishment of the college, which had originally been entirely under its own control. There seems once to have been some notion of making "McGill College" a Church of England University, but this idea was abandoned, and it was decided ultimately that the governors of the college should be laymen "selected with a view to the representation" of the several Protestant denominations in Lower Canada.

BIRTHDAY CONGRATULATIONS

TO
March 30.

Archer, Hon. Charles Hector, LL.B. (K.C. (Montreal); born, Quebec, 1869; Judge of the Superior Court of Quebec since 1910.

VOTERS' LISTS CLOSE

IN ONE MORE WEEK

Registration for Province Ends

on April 7; Activity

Marked

With one more week to go the provincial voters' lists for the province close. Then it will be known to what extent the qualified electors of British Columbia are anxious to avail themselves of the franchise.

In the city division, in Saanich and Esquimalt ridings there has been great activity in Liberal circles in securing the registration of the intelligent, progressive citizens, and a large number of names have been lodged with the respective registrars. The same position applies to the islands. Activity both in the islands and Saanich is due to the rumors of political change, and the prospects of the constituencies being opened in the near future. In the city the staleness of the late register is being abundantly shown, and the complaints which Liberals have made of the conditions which prevailed at recent elections are showing themselves to have been more than justified.

The value of the lists is especially noteworthy at a time when the prospect of a dissolution of the federal house is a possibility on the political horizon. A good deal of organization work is being done at the present time in the constituencies of the southern end of the island, and this acts as a stimulant to the registration now in progress.

There will be meetings of Ward Two Liberals to-morrow night, and of Ward Three Liberals on Wednesday evening.

Any man thinks he knows a lot about women until he marries one.

Stewart Williams & Co.

Duly instructed by Dr. Winston, will sell by

Public Auction

At his residence on Foster street (off Esquimalt Road), on

Thursday, April 3

At 2 o'clock, a quantity of very fine

Household Furniture

LADIES' OUTFITTERS

Yates Street

Yates Street

Man-Shirt
Waists,
\$1.25 to \$3.75

MAJESTIC THEATRE.

"Pickwick Papers" from Dickens' story of Pickwick's adventures. Part one records the adventures of "The Honorable Event," introducing Mr. Pickwick, Mr. Jingle, Mr. Winkle, Mr. Tupman, Dr. Slammer and all the well-known members of the Pickwick Club. Slammer and Dr. Winkle are about to fight a duel, which is prevented by the timely discovery that Jingle and not Winkle is the man who insulted the doctor.

Part two embodies "The Adventure of Westgate Seminary," in which Pickwick through Job Trotter, Jingle's chum, makes a wild goose chase to the young ladies' seminary to prevent Jingle from eloping with one of the girls. This scheme of Jingle's gives Jingle and Job Trotter a chance to get away and escape the discovery of their rascality. Sam Weller, Pickwick's faithful servant, is much in evidence in this laughable adventure. There are other good features for to-day and Tuesday.

WEATHER BULLETIN.

Daily Report Furnished by the Victoria Meteorological Department.

Victoria, March 31—5 a.m.—The pressure has increased in the North Pacific states but remains low over the Canadian provinces from Cassiar to the Great Lakes. Light to moderate rainfall has occurred west of the Rockies and snow has fallen at Barkerville. In the prairie provinces the weather is chiefly fair and milder.

Forecasts
Victoria and vicinity—Southerly and westerly winds, generally fair with not much change of temperature.
Lower Mainland—Light to moderate winds, generally fair, with stationary or higher temperature.

Reports
Victoria—Barometer, 30.18; temperature, 38; minimum, 30; wind, 4 miles W.; rain, .04 inch; weather, clear.

Vancouver—Barometer, 30.13; temperature, 36; minimum, 34; wind, calm; rain, .02 inch; weather, part cloudy.

Kamloops—Barometer, 29.96; temperature, 34; minimum, 24; wind, calm; weather, clear.

Barkerville—Barometer, 29.95; temperature, 18; minimum, 16; wind, 10 miles S. W.; rain, .10 inch; weather, cloudy.
